

Scientific Use - 2014 Animal Use Statistics Report (Due 31 May 2015)

Please complete ALL questions.

Registrant Details

1. Registrant Name:

73(2)Irrelevant

2. Registration Number:

3. Was there any complaint or grievance relating to any activity during 2014?

(Select Yes or No using drop-down menu)

No

Declaration

I declare that the information provided in this report is true and correct.

WARNING: It is an offence for a person to provide false or misleading information, or to provide a false or misleading document or statement

4. Full Name:

73(2)Irrelevant

5. Position in Organisation:

6. Date:

12-May-2015

For support, please e-mail: animalethics@daff.qld.gov.au or telephone: 07 3276 6113

If there are multiple registrants or multiple AECs in this report, the additional registrants and AECs can be entered into the Activity Details worksheet against the relevant activity.

Last revised: 23 December 2014

Scientific Use - 2014 Animal Use Statistics Report (Due 31 May 2015)

INSTRUCTIONS: **Begin entering your information into Row 15.** Select Animal type, Purpose (for schools it is always Achievement of educational objectives) and Category from drop-down lists in the cell and choose the appropriate entry. If macros are enabled, you can see the drop-down list in a larger font by double clicking the left mouse button while the cursor is positioned on the cell.

73(2)Irrelevant				Dogs:Domestic Mammals	25	Maintenance and improvement of human or animal health and welfare	Minor physiological challenge	Dose determination study of EBC-46 in dogs for the intratumoral treatment of cutaneous mast cell tumours	Trial ongoing, clinical cases being recruited (very slowly..) as they present in the co-operating veterinary clinics.

Scientific Use - 2014 Animal Use Statistics Report (Due 31 May 2015)

Registrant Details

1. Registrant Name:

73(2)Irrelevant

2. Registration Number:

3. Was there any complaint or grievance relating to any activity during 2014?

Yes

Declaration

Please provide details in Complaints Worksheet

I declare that the information provided in this report is true and correct.

WARNING: It is an offence for a person to provide false or misleading information, or to provide a false or misleading document or statement

4. Full Name:

73(2)Irrelevant

5. Position in Organisation:

6. Date:

29-May-2015

For support, please e-mail: animalethics@daff.qld.gov.au or telephone: 07 3276 6113

If there are multiple registrants or multiple AECs in this report, the additional registrants and AECs can be entered into the Activity Details worksheet against the relevant activity.

Last revised: 23 December 2014

73(2)Irrelevant				Dogs:Domestic Mammals	46	Maintenance and improvement of human or animal health and welfare	Conscious intervention (minor) without anaesthesia	<p>This study involves locating 45 naturally flea infested dogs and 45 naturally flea infested cats in Cairns, Townsville and environs, North Queensland. Flea counts are performed on the animals to determine the number of fleas on the animal and flea traps are placed in the home to estimate the environmental population. Homes and their respective pets are then placed into one of three treatment groups each with 15 dogs and 15 cats. Animals in the first treatment group will receive 2)Irrelevant monthly (active ingredient – Selamectin). Animals in the second treatment group will receive 1)Irrelevant plus monthly (Active ingredients Fipronil + S- Methoprene). The third group will receive 2)Irrelevant monthly (Active ingredients Imidacloprid & Moxidectin). All three treatments are registered for dogs and cats by the 1)Irrelevant and will be strictly administered according to label directions. Post treatment assessments are carried out approximately 30,60 & 90 days on the pets and in the environment.</p>
