

Quarry Material Management and Sale Policy Statement

Forest Products

Forest Products is a business unit of the Queensland Department of Agriculture and Fisheries. The unit is responsible for the management and sale of State-owned quarry material under the provisions of the *Forestry Act 1959*.

Forest Products is committed to:

- maximising financial returns from its quarry material sales and management activities consistent with State government priorities, environmental responsibilities and community expectations
- ensuring the sale of State-owned quarry resources comply with legislative and statutory requirements
- engaging with peak industry bodies, the extractive industry sector, government agencies and other stakeholders to promote a secure environment for investment in the development of State-owned quarry resources
- expanding the State's quarry material business to underpin regional development
- identifying and protecting current and future State interests in quarry resources across Queensland through input into legislative, policy, planning and land tenure processes
- promoting continuous improvement to achieve enhanced business outcomes
- demonstrating and promoting an ethical culture, with staff taking personal responsibility to uphold the *Code of Conduct for the Queensland Public Service*, and reporting any conduct that is not consistent with the Code.
