Drought Relief Assistance Scheme (DRAS)

Transport of Livestock Purchased for Restocking Freight Subsidy

The Drought Relief Assistance Scheme (DRAS) is offered by the Queensland Government and administered by the Department of Agriculture and Fisheries (DAF). The purpose of the scheme is to assist primary producers whose properties are drought declared to manage the welfare of their livestock during drought, and to restore their herds after drought. This subsidy helps with the cost of transporting livestock purchased for restocking once the drought is over.

Eligibility

To apply for this subsidy, you must meet the following conditions:

- You are a primary producer. For the purposes of this scheme, a primary producer is a person or a partner in a partnership, company or trust who spends more than 50 per cent of their labour on, and derives more than 50 per cent of their gross income from, a primary production enterprise.
- You are a property owner, share-farmer or lessee in the grazing industry (beef cattle, sheep, dairy cattle, goats, deer or horses that are not normally hand-fed).
- The livestock were purchased after the drought declaration was revoked for your property.¹
- The restocking movement has occurred within 24 months of the revocation of your drought declaration.
- The introduced livestock do not increase stock numbers on the property beyond normal carrying capacity.
- The livestock were transported by the shortest practicable route, up to a maximum distance of 2,000km.²
- The livestock were transported by hired carrier, private vehicle or rail.
- Your application is received in Brisbane within six months of the date the livestock were transported to your property.

Please note: - Due to COVID-19, an extension of the timeframe for receipt of claims by DAF from 6 months to 12 months will apply to invoices dated from and including 11 September 2019 for claims received from and including 11 March 2020. This extension will be reviewed on 11 September 2020. It does not apply to invoices already submitted to DAF and declined prior to 11 March 2020.

The subsidy applies to:

- The replacement of up to 75 per cent of the total number of livestock either sold from your property, from agistment or from feedlots during the time that your property was drought declared and for two months prior to the drought declaration.

¹ Breeders may be purchased while your property is drought declared, providing they are held on agistment and return to your property after the drought declaration is revoked.

² The 2000 km distance restriction applies for transport movements from 1 July 2018 to the end of eligibility period from the current drought. For transport movements before 1 July 2018, or for transport movements relating to future droughts, the distance restriction is 1000km. This distance restriction of 1,000km may not apply if it has been extended following a recommendation by the local drought committee (LDC) for the area. In such cases, the LDC will recommend a maximum distance on a case-by-case basis. The maximum distance that can be approved by the LDC is 1500 km and subsidies will be reduced if this distance restriction is exceeded. Any distance restriction to 2000km cannot be extended by the LDC.
**Ineligibility**

The subsidy does not apply:

- when livestock are returned while your property is still drought declared
- when livestock purchased total more than 75 per cent of the total number of livestock sold from your property, from agistment or from feedlots during the time that your property was drought declared and for two months prior to the drought declaration
- to invoices submitted from entities related to the applicant, such as a family member or company owned by the applicant (for example, livestock purchased from a company owned by the applicant).

**Restocking credits**

Restocking credits are established for your property for up to 75 per cent of the total number of livestock either sold from your property, from agistment or from feedlots during the time that your property was drought declared and for two months prior to the drought declaration. Documentary evidence of sales should be provided to DAF to establish your restocking credits for your property.

It is unacceptable, from an animal welfare viewpoint, to allow stock to perish due to lack of feed and/or water and it is acknowledged that the humane destruction of animals may be the only viable option in some generalised and severe drought conditions.

To be eligible for restocking credits, property owners must provide a statutory declaration describing the number of animals destroyed, the date and method of destruction and the method of disposal of the carcasses. The restocking credits will be calculated at 75 per cent of the total number of animals that have been humanely destroyed on animal welfare grounds.

**Introduction of livestock — suspension from DRAS**

This subsidy does not apply when livestock have been returned, introduced or agisted on a drought-declared property. When this occurs, access to all DRAS assistance measures will be suspended from the date the animals are introduced to the property and for an additional 16 weeks after the livestock, or an equivalent number, have left the property.

Non-breeders that are returned because they have been genuinely forced off agistment may remain on your drought-declared property for up to one month while further agistment is sought, before the suspension period begins.

Breeders genuinely forced off agistment and returned do not incur the 16-week suspension, provided a statutory declaration is presented with the application that indicates why the animals were forced off agistment. This is approved by DAF on a case-by-case basis.

Breeders not forced off agistment that are returned to your drought-declared property can remain on your property for a maximum of four weeks while further agistment is found, without incurring a 16-week suspension.

Weaners up to six months old can be returned to your property while it is still drought declared if weaning facilities are not available on the agistment property. A statutory declaration from the agisting property owner is required to support this.

All suspensions are lifted from the property when the drought declaration is revoked.
Subsidy rates

Subsidy rates are provided for information purposes only; you do not have to make your own calculations. Subsidies will be calculated by DAF and paid out at the following rates:

<table>
<thead>
<tr>
<th>Hired carrier</th>
<th>75% of the total freight cost to a maximum charge in line with current average rates as approved by DAF.</th>
</tr>
</thead>
</table>
| Private vehicle | - Cattle & horses – 90 cents / kilometre / 12.2 m deck  
 | - Sheep – 50 cents / kilometre / 12.2 m deck |
| Rail | 75% of the total freight cost |

All subsidies will be paid out to a maximum charge in line with the current average rates per 12.2 m deck as approved by DAF. Other deck lengths are calculated on a pro-rata basis.

Companies who own the property and use vehicles from a subsidiary company will be paid at the private carrier rate, not the hired carrier rate.

A sheep-to-cattle ratio of 7:1 applies when restocking changes from one species to another.

How to apply

Application forms and guidelines are available online at [daf.qld.gov.au](http://daf.qld.gov.au) or can be posted or emailed to you if you contact the Customer Service Centre on 13 25 23. Keep a copy of your tax invoices for your records and submit completed application forms and tax invoices to the DAF Brisbane office at the below address. Please post applications to:

*Drought Relief Assistance Scheme*  
*Department of Agriculture and Fisheries*  
*Level 6*  
*GPO Box 46*  
*Brisbane Qld 4001*

Or email to: [droughtdeclarations@daf.qld.gov.au](mailto:droughtdeclarations@daf.qld.gov.au)

Supporting documents

DAF is unable to process applications without copies of all tax invoices and waybills that relate to the transport of the livestock purchased for restocking. Please include copies of all tax invoices with your application. Remember to keep a copy of the application for yourself, as tax invoices and waybills will not be returned to you.

For **hired carrier** transport, please attach documentation showing proof of purchase of livestock, including date of purchase, number and class of livestock, and place of purchase. Please also attach freight tax invoices for all livestock movements and waybills detailing the number and class of stock, and the date of movement.

For **private vehicle** transport, please attach NVD Waybill/s and a statutory declaration stating:

- Make/type of vehicle  
- Vehicle registration details  
- Gross vehicle mass (GVM)  
- Start and finish odometer readings  
- Date of transport  
- Deck length  
- Number of decks  
- Distance travelled
For rail transport, please attach all tax invoices and waybills.

To establish your restocking credits, please provide sales dockets and/or kill sheets showing the type of stock and dates of sale or slaughter with your initial Freight Subsidy Application: animals purchased for restocking.

**Minimum and maximum payments**

The minimum payment for each application is $25. No payment will be made for any claims under this amount.

The maximum level of financial assistance available under DRAS is initially $20,000 per property, per financial year. For the purposes of this scheme, all properties or land parcels included under a single Property Identification Code (PIC) are considered to be one property. This scheme does not allow the splitting of partnerships, properties or land parcels to access more than the prescribed maximum amount.

The initial $20,000 limit may be extended to $30,000 if a Drought Management Plan (DMP) for your property is endorsed by a DAF officer. Once a DMP is endorsed, the $30,000 ceiling applies to the entirety of the current financial year and subsequent financial years. When a property with an endorsed DMP is in its third or subsequent year of being drought declared, the maximum allowable limit per financial year increases from $30,000 to $40,000. When a property with an endorsed DMP is in its sixth and subsequent year of being drought declared, the maximum allowable limit per financial year increases to $50,000.³

Once a drought declaration is revoked, the DRAS ceiling is the level the property was on immediately prior to the revocation of the drought declaration and remains at that level for the period that the property is eligible to apply for DRAS. For example, if a property with an approved DMP was in the third year of being drought declared when the property is revoked the DRAS ceiling is $40,000.

Properties without a DMP prior to revocation can obtain a DMP, and the DRAS ceiling limit will be $30,000 regardless of the length of the drought declaration. For example, if a property without a DMP was in its third or subsequent year of drought prior to revocation, the producer can apply for a ceiling extension to the limit of $30,000.

Where you have received a payment that you are not eligible to receive, DAF reserves the right to pursue reimbursement, which may include reclaiming funds from any future eligible DRAS applications that you submit.

**Processing times**

DAF aims to process 90 per cent of claims within 21 working days. Incomplete claims or claims that do not clearly meet the eligibility requirements may take longer. To ensure your claim is processed as quickly as possible, please make sure you have provided all of the required information and that you meet the eligibility criteria.

³ When a property with an endorsed DMP is in its sixth and subsequent year of being drought declared, the maximum allowable limit per financial year increases to $50,000. This increase is from 1 July 2018.
**Payment method**

DAF’s preferred method of payment is direct electronic transfer into your bank account; however, you may request payment by cheque. You can indicate on your form which method you would prefer.

**Assessment**

DAF will consider all applications for the transport of livestock purchased for restocking freight subsidy received within six months of the date of transport.

Applications will be assessed against the eligibility criteria. DAF reserves the right to request further information from you or any business or individual you have engaged, to assist in assessing your application and to verify any information provided in your application. Failure to provide such information may result in DAF refusing your application. DAF also reserves the right to refuse an application, at its discretion, for any reason or for no reason irrespective of whether the eligibility criteria have been met.

DAF may consult with members of your local drought committee to assist in assessing your claim.

Applications submitted may be subject to audit by DAF or its agents in order to determine compliance with scheme guidelines.

**Fraudulent applications**

By signing the application form, you are declaring that the information provided in the application form and supporting documentation is true and accurate. Providing inaccurate, untrue or misleading information may be a breach of criminal law for which serious penalties may apply. If any information provided in an application or supporting documentation is found to be inaccurate, untrue or misleading, legal action may be taken against you, including action to recover the subsidy.

**Appeal and review process**

If you are declined DRAS assistance because your claim was received by DAF outside of the eligible time limit, you can request a re-consideration by writing to the Minister for Agricultural Industry Development and Fisheries and outlining the reasons why your application was late. Payment of a declined claim may be approved at the Minister’s discretion, if the Minister considers that there are extenuating circumstances that contributed to the late submission.

If you are declined DRAS assistance because DAF officers believe you do not meet the eligibility criteria (for example, DAF officers believe you do not qualify as a ‘primary producer’), you may request re-consideration by writing to the Minister for Agricultural Industry Development and Fisheries and outlining the reasons why you believe you are eligible and including any additional supporting evidence. Payment of a declined claim may be approved at the Minister’s discretion, if the Minister considers that the evidence provided by you demonstrates that you meet the eligibility criteria.

**Producer responsibilities**

While this scheme is to help you to manage the welfare of your animals, it does not discharge you from your legal responsibilities under the *Animal Care and Protection Act 2001*. You should continue to manage the welfare of your animals, either by continuing to destock, by supplementary feeding or by carrying water, until such time as conditions on your property improve.
Guidelines

These guidelines are correct at the time of publishing. DAF reserves the right to amend, alter or change these guidelines at any time, and it is the responsibility of the applicant to ensure that they check the relevant website frequently. The guidelines that apply to your application will be the guidelines that are current at the time your application is received by DAF.

While DAF has taken all care in preparing these guidelines, DAF will not be liable in any way for any errors, omissions or variation to information in these guidelines or for not advising an applicant of any errors, omissions or variations to information in these guidelines.

DAF may cancel or suspend this scheme at any time without notice.
