AUTHORISED ACTIVITIES

1. The permit holder is authorised to use the following apparatus:

- . 1 monofilament net, maximum 80 metres in length, with a mesh size of 115 mm

Use of the net is subject to the conditions below.

CONDITIONS

1. Please contact the District Officer of the nearest Queensland Boating and Fisheries Patrol (Rosslyn Bay/ Yeppon Office) on ph:(07) 4933 6404 or mobile: sch4p4(6) Person or mob sch4p4(6) Person 24 hours prior to commencing fishing.

2. The net may be used from Port Clinton to Shoalwater Bay from 3 April 2015 to 6 April 2015.

3. The net may be used to collect fish for a Naming Ceremony.

4. Only one net may be used.

5. Fish collected during the activity must not be sold.

6. Any fish caught must be used at the event stipulated in condition 3 only and for no other purpose.

7. The net must not be used to take species protected under other legislation (e.g. turtle and dugong).

8. The permit holder must be in attendance (in attendance means within 100m and on or in the water)of the net that is being used at all times.

9. The net in use:

- . may be set (anchoring or fixing the net to a place at both ends); and

- . must be clearly marked with the permit holders name, address and permit number on a white float at least 15 cm in all its dimensions; and

- . must not be placed across the width of creeks or rivers, navigation channels or any other areas where the placement of the net would make more than one half of the waterway impassable to a boat or fish; and

- . must not be joined together with another net; and

- . if used by day, must be marked by light coloured floats no more than 15m apart along its length; and if used by night, must also be marked by a white light at both ends of the net which is visible for at least 400m in all directions.

			<p>10. The holder must not allow any part of the net containing a fish to be out of the water other than to immediately remove the fish from the net.</p> <p>11. This permit must be available for immediate inspection to an officer authorised under the Fisheries Act 1994 (e.g. Queensland Boating and Fisheries Patrol officer) during netting activities.</p> <p>12. The permit holder is required to abide by any additional restrictions or requirements and obtain necessary authorisations that any local authority (Shire or City Council) or State or Commonwealth Government Departments (e.g. Department of National Parks, Recreation, Sport and Racing, Department of Environment and Heritage, Department of Transport and Main Roads, Department of Defence, GBRMPA) may impose on the above activities.</p> <p>13. Note that waters listed below cannot be fished: Coomabah Lake and Coombabah Creek Swan Bay, North Stradbroke Island Wolf Rock (east of Double Island Point) Mary River 400m downstream of the barrage Tinana Creek 400m downstream of the barrage Burnett River 400m downstream of the barrage Kolan River 400m downstream of the barrage Fitzroy River 400m downstream of the barrage Keppel Bay within 150m radius of Middle Island Underwater Observatory Hook Island within 100m radius of Observatory Yanks Jetty at Orpheus Island - under or within 100m of jetty Centenary Lakes, Cairns Barron River at Barron Waters (near Stony Creek and junction of Camp Oven Creek) Bizant River, Princess Charlotte Bay - including German Bar Lagoon and 2km downstream of German Bar road crossing.</p> <p>14. The permit holder must complete and submit the attached report sheet which states the species and number of fish which were taken during the permit period.</p>
sch4p4(6) Per 191041	15/04/2017	17/04/2017	<p>AUTHORISED ACTIVITIES</p> <p>1. The permit holder is authorised to use the following apparatus: . 1 net, maximum 80 metres in length, with mesh size of 115 mm . 1 net, 70 metres in length, with mesh size of 101mm</p> <p>Use of the net is subject to the conditions below.</p>

CONDITIONS

1. The holder must contact the District Officer of the nearest Queensland Boating and Fisheries Patrol (Rosslyn Bay) on mobile: sch4p4(6) Person or ph: (07) 4991 5106, 24 hours prior to commencing fishing.
2. When contacting the Queensland Boating and Fisheries Patrol (Rosslyn Bay), the holder must provide details of the date/s, time and exact location that the permit is to be used.
3. The net may be used in waters of Port Clinton and Freshwater Bay, from 15 April 2017 to 17 April 2017.
4. The net may be used to collect fish for Traditional Naming Ceremony.
5. Only one net may be used at any one time.
6. Only the following fish species may be taken with use of the net: Mullet and Salmon.
7. Fish collected during the activity must not be sold.
8. Any fish caught must be used at the event stipulated in condition 4 only and for no other purpose.
9. The net must not be used to take species protected under other legislation (e.g. turtle and dugong).
10. The permit holder, or an Indigenous person of the sch4p4(6) Personal informati acting under the direct supervision of the permit holder, must be in attendance (in attendance means within 100m and on or in the water) of the net that is being used at all times.
11. The net in use:
 - . may be set (anchoring or fixing the net to a place at both ends); and
 - . must be clearly marked with the permit holders name, address and permit number on a white float at least 15 cm in all its dimensions; and
 - . must not be placed across the width of creeks or rivers, navigation channels or any other areas where the placement of the net would make more than one half of the waterway impassable to a boat or fish; and
 - . must not be joined together with another net; and
 - . if used by day, must be marked by light coloured floats no more than 15m apart along its length; and if used by night, must also be marked by a white light at both ends of the net which is visible for at least 400m in all directions.
12. The holder, or an Indigenous person of the sch4p4(6) Personal informati acting under the direction of the permit holder, must not

			<p>allow any part of the net containing a fish to be out of the water other than to immediately remove the fish from the net.</p> <p>13. This permit must be available for immediate inspection to an officer authorised under the Fisheries Act 1994 (e.g. Queensland Boating and Fisheries Patrol officer) during netting activities.</p> <p>14. Note that waters listed below are closed to all fishing and cannot be fished: Coomabah Lake and Coombabah Creek Swan Bay, North Stradbroke Island Wolf Rock (east of Double Island Point) Mary River 400m downstream of the barrage Tinana Creek 400m downstream of the barrage Burnett River 400m downstream of the barrage Kolan River 400m downstream of the barrage Fitzroy River 400m downstream of the barrage Keppel Bay within 150m radius of Middle Island Underwater Observatory Hook Island within 100m radius of Observatory Yanks Jetty at Orpheus Island - under or within 100m of jetty Centenary Lakes, Cairns Barron River at Barron Waters (near Stony Creek and junction of Camp Oven Creek) Bizant River, Princess Charlotte Bay - including German Bar Lagoon and 2km downstream of German Bar road crossing.</p> <p>15. The permit holder must complete and submit the attached report sheet which states the species and number of fish which were taken during the permit period.</p>
