

# Fire Ants

## DECLARATION NOTICE

Fire ant restricted area boundaries have been updated to help us stop the spread of fire ants in South East Queensland.

The Director-General of the Department of Agriculture, Fisheries and Forestry declares that the following suburbs are in either the high risk restricted area or the low risk restricted area to prevent the spread of fire ants:

**For residents and businesses, different restrictions apply in each restricted area to the movement of risk items such as soil, mulch, hay, turf, manure and green waste.**

Changes to the restricted areas came into effect on 31 October 2013.

To learn how the changes affect you or your business visit, [www.daff.qld.gov.au/fireants](http://www.daff.qld.gov.au/fireants) to view a map showing the boundaries of the high risk and the low risk restricted areas, and guidelines for residents and industry.

**For more information call 13 25 23.  
[www.daff.qld.gov.au/fireants](http://www.daff.qld.gov.au/fireants)**

Movement restrictions outlined in sections 51-58 of the *Plant Protection Regulation 2002* apply to the movement of restricted items such as soil, mulch, hay, turf, manure and green waste.
