Release

Lindi Bowen

From: [redacted] sch4p4(6) Personal information [redacted] @qr.com.au]
Sent: Monday, 29 November 2004 11:19 AM
To: mark.paton@epa.qld.gov.au
Cc: Lindi Bowen; Cross, Mandy; [redacted] sch4p4(6) Personal information
Subject: Removal of lots from the EMR.

Mark,

In February this year we organised a download of all land which could be identified as owned by QR and on the EMR. The results were loaded into our database so that we could identify the land to avoid re-notifying it or to determine if it may have been incorrectly listed.

We recently supplied a list of lots proposed for divestment from QR to the Lindi to run a cross check to the EMR as a final check to ensure we had correctly identified any of the land which is listed and will now be sold.

Of the approximately 155 lots we have found that 14 lots appear on the EMR but that these 14 lots were not identified in our project as requiring listing. Many of these are in the process of negotiation for sale or are tagged for going to auction in the very near future, (some as early as next weekend).

I have collated some plans/maps for the land in question as the case or start of the case to have them removed (or not).

Unfortunately the issue is of some urgency. Would there be any chance in the next day or two of getting one of your senior people to review the data with us as the fastest way of progressing this.

This would be done at our offices to enable the use of our electronic land information systems.

Will try to ring you a little later to discuss.

Regards!
