

Currently this closure is described in the *Fisheries Regulations 1995* as:

**Bribie Island's eastern shore and the sand spit at Kings Beach**

The following waters -

- (a) eastern foreshore waters of Bribie Island between latitude 26°50.06' south on the island's shore and the island's northern tip;
- (b) foreshore waters at Caloundra between the groyne at the southern end of Kings Beach and the western tip of Bulcock Beach.

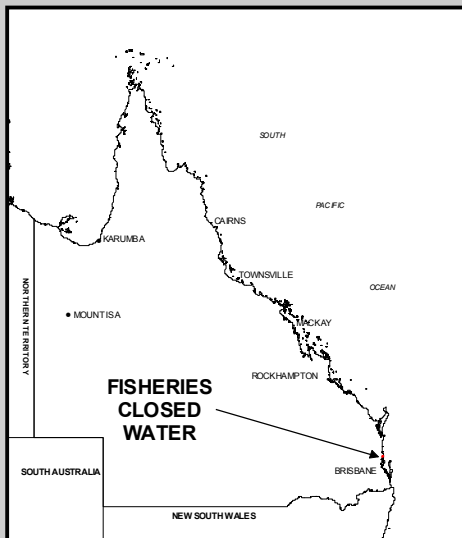

Under the Regulatory Review process it has been suggested that this closure should instead reflect the closure description set out in the *Fisheries (East Coast Trawl) Management Plan 1999*, as from 1st July 2006. The closure has therefore been mapped according to that description, which is as follows:

**Bribie Island's eastern shore and the sand spit at Kings Beach**

The following waters-

- (a) eastern foreshore waters of Bribie Island between an F B sign at (1) latitude 26°50.05' south, longitude 153°07.78' east on the island's shore and an F B sign at (2) latitude 26°48.92' south, longitude 153°07.89' east at the island's northern tip;
- (b) foreshore waters at Caloundra between (3) latitude 26°48.38' south, longitude 153°08.36' east (the groyne at the southern end of Kings Beach) and (4) latitude 26°48.47' south, longitude 153°08.00' east (the western tip of Bulcock Beach).
