LIMITED SOIL ASSESSMENT,

s.73

1. INTRODUCTION

1.1 Background

The former EMR listing of Lot 983 and the listing of some of the surrounding lots were due to their association with a larger lot (Lot 2 on RP802319). Lot 2 was listed on the EMR due to the notifiable activity of fuel storage and it was believed this occurred within the Forgacs ship maintenance facility located 300m further north of the Colmslie Estate.
