Subject: Stop Acland Stage 3 by rejecting the mining licence outright

Dear Minister Lynham, Premier Anastacia Palaszczuk, Deputy Premier Jackie Trad and Environment Minister Stephen Miles,

The Land Court has recommended that you reject the Acland Stage 3 coal expansion because the impacts on groundwater are too great. It's time for you to stand up for Queensland and reject the project!

31 local community objectors spent two years fighting this mine in the Land Court because of the unacceptable impacts it will have on groundwater, Strategic Cropping Land and the health and wellbeing of their community.

They argued the mine would have no net impact on jobs in the region and would earn the government very few royalties.

The court concluded that the risks to groundwater were too great. The community and the court have spoken.

We're calling on you to show proper respect for the law and affected farmers and:

1. Stop Acland Stage 3 by rejecting the mining licence outright, and make the decision within 6 weeks to bring certainty for landholders and the community
2. Put in place permanent protections for the region so New Hope don't lodge yet another revised application

We'd also like to ask that you work closely with the mining company, New Hope, to provide restructuring support and re-training for any affected workers.

Yours sincerely, [redacted] Schedule 4 - CTPI

Subject: It's D-Day for the Darling Downs

Dear [redacted] schedule 4 - CT

The waiting game is finally coming to an end. Next Wednesday, 14th February, the Queensland Department of Environment and Science (DES) will make their on the Acland Stage 3 Expansion*.

Despite an historic recommendation from the Land Court that the mine should not go ahead, the Department of Environment and Science must still decide whether to grant an environmental authority.

This week we need all eyes on DES to make sure they don't grant the EA on this dodgy and destructive project!

[Will you call the department today, right now, so they know the wider community stands by the Land Court and Darling Downs farmers in opposition to this mine?](#)

We have all the information that you need right here:

- **Call 1300 130 372 and choose option 4 ("licences and permits").**
- **Ask to speak to the person making the decision on Acland Stage 3 Expansion**
- **Ask for your name and contact details to be recorded and that you urge the department to follow the Land Court recommendation to reject the mine.**
- **Tell them ignoring the Land Court decision would completely undermine the rule of law in Queensland and make a laughing stock of the Land Court.**
- **Let us know how it went.**

CALL NOW

You can find more information about the impacts of the Acland Stage 3 mine and the [Land Court decision here](#).

Together we can clear this final hurdle! Our land and water depend on you picking up that phone today.

Thanks so much for adding your voice.

Schedule 4 - CTPI

For the Lock the Gate Team

PS: We are holding a [Campaign info night](#) and [tour to Acland](#) in the coming months. We would love to see you there. Click on the links to RSVP.

*Minister Lynham still needs to decide on the mining licence. He has delayed that decision until after more court hearings in March.

Date: Mon, Feb 12, 2018 at 8:22 PM
Subject: 7.30 Report and ACLAND Decision
To: "info@ddec.org.au" <info@ddec.org.au>

Greetings

DDEC members and friends will be aware of our long running commitment to preserving farmland on the Darling Downs from coal and gas mining. You will know how we joined forces with our member Oakey Coal Action Alliance to win the very first Land Court Case against a coal mine in Queensland's history.

On Tuesday, February 13 the 7.30 Report on ABC TV will cover the recent history or our fight, which is your fight, in a special report. Be sure to watch what you have achieved so far. The next day, Valentines Day February 14, members of the Oakey Coal Action Alliance will gather at Noon at Tom Doherty Park, Acland, to receive word from the Environment Department which is expected to approve the Environmental Authority, despite the Land Courts findings that it would be a violation of the Principles of Intergenerational Equity do do so.

Please watch the programme. If you can, please come to the gathering at Tom Doherty Park. We aim to show the press and media who will be there that the political decision that will follow must not give final approval to this project that will blight our landscape and remove its productivity forever.

If you are interested in how else you might help at this vital time please feel free to reply to this email. Lifts are available to Acland on the day. If we cannot win when we have won we have truly lost everything. Our duty is to make everyone, especially the politicians, understand that.

Yours Faithfully

Dear Minister,

As a passionate environmentalist and a Labor supporter, I have emailed your government regarding the Adani mine – I am so excited about the stand that Labor took prior to the election.

But I am gobsmacked at the hands off approach taken with regard to the Murray Darling Basin Water program and the expansion of the Acland Mine – do you need another election to be forced to act on behalf of our environment!

We want a life for our children – our environment is precious, and of all political parties, I thought I could rely on Labor to be our strength.

To whom are you beholden?

Wake up NOW!

Subject: 7.30 Report and ACLAND Decision

To: "info@ddec.org.au" <info@ddec.org.au>

Greetings

DDEC members and friends will be aware of our long running commitment to preserving farmland on the Darling Downs from coal and gas mining. You will know how we joined forces with our member Oakey Coal Action Alliance to win the very first Land Court Case against a coal mine in Queensland's history.

On Tuesday, February 13 the 7.30 Report on ABC TV will cover the recent history of our fight, which is your fight, in a special report. Be sure to watch what you have achieved so far. The next day, Valentines Day February 14, members of the Oakey Coal Action Alliance will gather at Noon at Tom Doherty Park, Acland, to receive word from the Environment Department which is expected to approve the Environmental Authority, despite the Land Courts findings that it would be a violation of the Principles of Intergenerational Equity do do so.

Please watch the programme. If you can, please come to the gathering at Tom Doherty Park. We aim to show the press and media who will be there that the political decision that will follow must not give final approval to this project that will blight our landscape and remove its productivity forever.

If you are interested in how else you might help at this vital time please feel free to reply to this email. Lifts are available to Acland on the day. If we cannot win when we have won we have truly lost everything. Our duty is to make everyone, especially the politicians, understand that.

Yours Faithfully

Subject: Stop Acland Stage 3 by rejecting the mining licence outright The court concluded that the risks to groundwater were too great. .

Follow Up Flag: Follow up

Flag Status: Completed

Dear Minister Lynham, Premier Anastacia Palaszczuk, Deputy Premier Jackie Trad and Environment Minister Stephen Miles,

The Land Court has recommended that you reject the Acland Stage 3 coal expansion because the impacts on groundwater are too great.

The court concluded that the risks to groundwater were too great. The community and the court have spoken.

We're calling on you to show proper respect for the law and affected farmers and the impact to water resources for the future. Water will be more precious than coal.

Yours sincerely, [redacted] Schedule 4 - CTPI

Subject: BREAKING: Win for Acland as coal expansion licence knocked back

Dear [redacted] Schedule 4

BREAKING! Queensland's Environment department has today refused the environmental authority required for New Acland Coal's Stage 3 expansion.

This is not just a win for Acland farmers, but a win for all farming communities, a win for trust in government and a win for proper legal process in Queensland.

[Read the full statement from EDO Qld CEO and Solicitor Jo Bragg](#)

Despite today's decision, the strain of uncertainty on our clients and

other community objectors continues. Next month EDO Qld must still lead the charge for our client as they fight off New Acland Coal's judicial review of the Land Court's decision. Meanwhile, the Mines Minister is yet to make his decision about whether or not to grant the required mining leases.

Our resources are exhausted. That's why we're urgently calling on your help again. If you believe in the protection of precious groundwater and agricultural land, [please make a donation today](#) to give us the best chance of upholding this historic win for the Acland community.

Yours sincerely,

Schedule 4 - CTPI

Subject: New Acland Mine decision

Hi,

As the journalist for the Oakey Champion, I am looking for a statement from the department directly for Oakey people. I am hoping the Minister can give me some clarification or reasoning behind yesterday's decision to reject the environmental authority on New Acland Mine. The announcement has rocked Oakey which relies on the mine for direct and indirect employment and its overall economic prosperity.

We want to know why the Minister has allowed hundreds - if not thousands - of jobs to be ripped from the Oakey community and \$7 billion to be lost from the Australian economy?

All the best,

Schedule 4 - CTPI
