Attachment : image001.png;image002.png;image003.png;image004.png;image005.png;image008.jpg;

To whom it may concern, inline with condition 5 of the permit, permit holder advises water extraction under permit commenced on 27/12/20 and finished on 4/1/20. Further info on the harvest from the extraction to follow as soon as practicable.

Thanks

Chris

Water Permit: 623285
Expiry Date: 31/07/2021

Conditions: Schedule B

Refer to Schedule B attachment

Published on DRDMW
Disclosure Log
RTI Act 2009

Conditions (Schedule B)

- (1) Pumping under the authority of this permit is prohibited whenever the flow in Mistake Creek downstream of the diversion channel used to take water under water licence 620909 is less than 432 megalitres per day. This is equivalent to a sill height for the diversion channel of EL193.74m.
- (2) The maximum rate at which water may be taken is 561.6 ML/day.
- (3) The take of water under this permit shall be carried out in accordance with:
 - Adani Infrastructure Pty Ltd Application for permit to take water from Mistake Creek – Supporting Document prepared by CDM Smith Australia Pty Ltd, dated 22 May 2020.
- (4) Where there is any inconsistency between the document in Schedule B Condition 3 and the conditions of this permit, the permit conditions prevail to the extent of the inconsistency.
- (5) On each occasion that water is taken under this permit, the holder must record:
 - (a) the date and time at the start and end of the period of take;
 - (b) the meter or measuring device reading at the start and end of the period of take;
 - (c) the rate of take and for each change in the rate of take;
 - i. the date and time of the change; and
 - ii. the new rate of take.
- (6) Records under Schedule B Condition 5 must be provided with the water permit reference number within 5 business days after each period of take to:
centralwaterservices@dnrme.qld.gov.au
