Good day Alan, yes the phone issue is unresolved and an unfortunate side-effect of covid would you believe! Happy to set up a teams-meeting to chat if needed.

Regarding the Koala, updated conservation advice and listing advice are on the SPRAT profile for the species.

[Phascolarctos cinereus \(combined populations of Qld, NSW and the ACT\)](#) [Koala \(combined populations of Queensland, New South Wales and the Australian Capital Territory\) \(environment.gov.au\)](#)

A recent media release provides some information regarding the recovery plan: i.e. we're waiting on state/territory approval.

<https://minister.awe.gov.au/ley/media-releases/increased-protection-koalas>

Hopefully this answers some of your questions, and feel free to send through a teams meeting next week when it suits and I can suggest a new time if it doesn't work.

Cheers

Hi s.73 Ir

Next Monday is not suitable for us. In terms of the Koala listing is there any documentation so far eg listing advice, conservation advice or an indication for when a recovery plan might be released. We're trying to determine what the listing means for us? Also I cannot phone you on the number below

Good day Alan,

Apologies however the up-listing of the Koala has required considerable resources this week. Can we please organise a time next week for the pre-referral meeting?

Wednesday 2 pm is good on our end.

Hi s.73 Ir

I tried to call but the phone number on your address footer says it is not connected? Anyway I work with Jim Burgess in Forest Products DAF who has been in touch with you regarding Beerwah State Forest on the Qld sunshine coast and the EPBC Act referral process. Forest Products would like to organise a meeting with you (and whoever from DAWE you think is appropriate) to discuss both our assessment and EPBC referral processes. Would you have availability this week? Friday is good for us, either early or after lunch. Can you get back to me with some suitable times (EST) and I'll organise a Teams hookup
