Samples Submitted Dingo Liver
Test Requested Rodenticides
Date Sampled 1/09/2021 Date Received 14/09/2021
Date Tested 21/09/2021
Lab Reference Number DP3761
Client Reference Number 20Green20M
Method AP020

Lab Ref No:	Sample Descriptor:	Chemical:	Result:	Units:
DP3761	Dingo Liver 20 Green 20M microchip: 941000014633017	Warfarin	trace*	
		Brodifacoum	0.02	mg/Kg
		Difethialone	0.17	mg/Kg
		All other rodenticides as listed in the Appendix	<LOR	

"Trace" means that the identity of the residue has been confirmed, but the concentration is below the validated limit of reporting. LOR is limit of reporting (see attached appendix).

Results reported on an 'as received' basis. The results pertain only to the samples submitted.

ObjectID	Management Area Description:	Location Description:	Reporting Officers Details:	Detailed report of events:
387	Connors Corner to Ngkala Rocks (Incl. Marloo, Ocean Lake & Duling Beach Camping)	Beach in front of Orchid airstrip		Rangers noticed a dingo laying down within 5m beside vehicles parked, as rangers drove closer the dingo ran off.
388	Eurong to Poyungan Rocks (Incl. One Tree Rocks Camping Area and Cornwells & Gabala Beach Camping)	Southern section of cornwells - before Cornwells Break Rd		Campers woke this am to find a dingo looking inside their tent , approx 1 mtr away
389	Indian Head to Waddy Point Headland	South Waddy beach		Dingo loitering, approaching fishermen and families on beach. Followed 1 man for approx. 50m from rocks back to his vehicle, at times getting within 5m. Photo shown to NRM ranger.
390	Wathumba Creek to Moon Point	Just north of Woralie camp zone		A man camping on his own started walking north along the beach toward Bowarrady when approached by a dingo from behind. The man described the dingo as behaving as if it wanted to play, jumping around, moving back and forth, getting down on all fours and at one stage vocalising. Dingo was approaching within 5-10m. Each time the dingo approached then man stood tall with his arms crossed and slowly made his way back to camp. Once he was back at camp the dingo left. He later decided to try going for walk again but found a stick to take with him, the dingo did not come back.
391	Ngkala Rocks to Bool Creek (Incl. Diray & Carree Beach Camping)	Sandy Cape, near Breaksea Spit		Email sent to dingo ranger, "we noticed 2 dingoes hanging around a couple of fishermen next to the dune right at the tip. (right next to their car) I commented that they didn't seem afraid and looked like they were expecting food. The guy said his daughter 'might have thrown a couple of scraps over her shoulder' so we told him why that action could alter the dingoes behaviour for ever and actually put it in danger. One dingo was orange tag no.36. "
392	Waddy Point Headland to Connors Corner (Incl. Waddy Point Campground)	Waddy beach, near headland		Dingo loitering around people fishing, sniffing around the backs of parked vehicles.
393	Waddy Point Headland to Connors Corner (Incl. Waddy Point Campground)	Waddy beachfront, near lagoon		3 dingoes loitering around approximately 40 vehicles parked on beach with people fishing. A fishing rod with a pilchard on the hook was lying on the ground, 1 of the dingoes grabbed it and started to run off with the rod in tow, people shoed it away.
394	Dundonga Creek to McKenzies Jetty (Incl. KBRV Beachfront)	1.5 Km South of Kingfisher resort on beachfront		kingfisher resort staff member was laying on the beach when a dingo approached them within 1.5metres it then jumped around and growled and was interested in a packet of opened chips which was near to the staff member. The person stoodup and grabbed the packet and shoed at the dingo with a stick.
395	Dundonga Creek to McKenzies Jetty (Incl. KBRV Beachfront)	Southern side of the Sunset Bar		Bar staff of the Sunset Bar advised that there was a dingo that continued to loiter around the beach area where the tables and bean bags are sniffing around where earlier in the day resort guests had been. This continued for a period of upto 1 1/2 hours.
396	Ngkala Rocks to Bool Creek (Incl. Diray & Carree Beach Camping)	Sandy Cape camping area		Dingo removed a pillow from sleeping camper. Camper was with a group and chose to sleep in an open swag near the other group
397	Yidney Rocks to Eli Creek (Incl. Guluri & Eli Beach Camping)	Guluri camp zone		Dingo pulled hair of sleeping camper. Camper said is was only slight tug but felt it. Camper was sleeping in an open swag. Camper chased dingo away
398	Yidney Rocks Private Residences	Opposite Maheno Cottages		Visitors stopped opposite Maheno Cottages and had their lunch. Two dingoes loitering around until the visitors left area.
399	Eurong to Poyungan Rocks (Incl. One Tree Rocks Camping Area and Cornwells & Gabala Beach Camping)	North end of One Tree Rocks camp zone		Dingo loitering around fisherpersons
400	Dundonga Creek to McKenzies Jetty (Incl. KBRV Beachfront)	Sunset Bar		As advised through Dingo ranger email: Just wanted to notify a regular dingo sighting on the beach next to sunset bar can be seen almost on daily basis at Kingfisher Bay Resort. 406	Dundonga Creek to McKenzies Jetty (Incl. KBRV Beachfront)	Sunset bar table area		Ranger from Kingfisher resort advised that there was a wedding party at the sunset bar when a dingo jumped on the table and ate the food platters.
407	Dundonga Creek to McKenzies Jetty (Incl. KBRV Beachfront)	KBRV beachfront		UT21M approached group of four visitors to within 5m and displayed dominance testing behaviour (playing, jumping around) and growled. When visitors moved on the dingo moved straight to the location and scavenged for food.
408	Happy Valley Township Fenced Area	Inside Happy Valley fence, near The Retreat		Dingo observed inside the Happy Valley fence via the dingo hotline. Tracks observed around The Retreat the following morning.
409	Dundonga Creek to McKenzies Jetty (Incl. KBRV Beachfront)	Sunset bar beach front		Sunset bar staff heard yelling and screaming coming from the beach near the vehicle access gate. A mother and two young children were at the tables when a dingo approached and were chased back to the vehicle gate which they exited. Bar staff then attempted to shoo the dingo with a stick but it was not easily deterred.
410	Waddy Point Headland to Connors Corner (Incl. Waddy Point Campground)	Waddy Point Lagoon		Lady waved down rangers and reported that yesterday after her husband had moved the vehicle down to the next gutter to fish leaving her with 4 kids to walk down and meet up. The kids aged 10, 8, 6 a new born and her started walking when a male dingo with a red tag ran from a long distance straight at them approaching within 1meter of her jumping around snarling and showing his teeth. The lady reported she had the new born in her arms and the other kids behind her, she said she tried to deter the dingo multiple times but the dingo wouldnt leave. She said shes been coming here for over 9 years and can usually chase dingoes off without a problem but this dingo wouldnt leave. After a few minutes a car driving past intervened with a couple men chasing the dingo away, she reported the dingo was still hanging around so the men from the car got a whip out and cracked it a few times before the dingo eventually left the area and she then got a lift back to her car.
411	Connors Corner to Ngkala Rocks (Incl. Marloo, Ocean Lake & Duling Beach Camping)	Orchid Beach North Ramp		Rangers drove past and noticed 2 dingoes loitering within 5 meters of fishermen preparing food. Rangers chased dingoes away.

414	Pinnacles to Wyuna Creek (Incl. Eugarie, Yurru & Gurruman Beach Camping)	Euragire CA beachfront		Reported via dingo.ranger e-mail - 2 visitors (adult and teenage female) walking on the beach late afternoon when the observed a blue tagged dingo approaching them at speed from a fair distance. It approached to within 1m (almost touching their feet) and displayed dominance behaviour (crouching, jumping, etc.). Visitors moved away slowly but were conscious of fading light and possibility of other animals in the area. This behaviour continued for 10-15mins. "The dingo (appeared to me anyway) not fuuly grown and had a blue tag, I didn't check closely for other tag colours, I was too worried about his/her mates appearing. I am a frequent visitor of Fraser and have not encountered 'dominance testing' behaviour up close like that before".
415	Connors Corner to Ngkala Rocks (Incl. Marloo, Ocean Lake & Duling Beach Camping)	South side of Ngkala Rocks		Multiple groups, approx 30 people were fishing south of the rocks. Several people reported 2 dingoes loitering in the area all day, all saying that the dingoes were mostly watching any children. Some said they saw the dingoes sitting on top of the dune watching. There was a family on the beach with a few children, the smallest of the kids (a boy about 6yo) was about 10-15ft from any adult, when he turned to face the water to cast his rod 1 of the dingoes ran at speed from 100m away straight toward the child. Another man nearby saw the dingo coming and ran in front of the child toward the dingo yelling to shoo it away. The dingo had about 3 goes at approaching, getting within 3m, then backed off. The child went into a vehicle and the dingo sat and watched. When the people who made the report left, the dingoes were still sitting at the top of the dune. NRM ranger later spoke to the family.
416	Connors Corner to Ngkala Rocks (Incl. Marloo, Ocean Lake & Duling Beach Camping)	South side of Ngkala Rocks		People that had been fishing/relaxing just south of Ngkala Rocks reported seeing a 3 dingoes hanging around, a pregnant female and 2 males. 1 of the dingoes was watching a man worming from about 20m away. When the man dropped his berley bag to pull out a worm the dingo ran in, grabbed the bag and ran over the dunes. The man tried to chase the dingo in attempt to get his bag back but it took off.
417	Connors Corner to Ngkala Rocks (Incl. Marloo, Ocean Lake & Duling Beach Camping)	South of Ngkala Rocks		A lady was walking with 3 children, although with the kids a few metres ahead of her from Ngkala Rocks back to the car. A dingo walked towards them, 2 of the kids ran back to the car, the lady said not to run, the smallest child stood still and the dingo approached within 1m. The lady was not sure what to do, another man walked over and shooed the dingo away, shouting and kicking at the sand. The dingo left. While they were in the aera they had noticed 2 dingoes hanging in the area. They said the dingo had scars on his face.
418	Coolooloi Creek to Dilli Village (Incl. Coolooloi Creek Beach Camping & Garulim, Midyim & Dulara Camping Areas)	Approx 1km from HP BL		A man had gotten out of his vehicle to check his tyres, as he was kneeling down he turned around to see a dingo had approached <3m. 520	Connors Corner to Ngkala Rocks (Incl. Marloo, Ocean Lake & Duling Beach Camping)	Zone 8 beachfront		Two men filleting fish on the beach at night noticed 2 dingoes loitering in the area, they emailed the following details: " they were quite persistent. There were two of us working, and you'd look up and see 4 eyes about 100m back, keep filleting for 15 seconds, look up and they'd be 50m away. Always inching closer. Probably shoo'd them away about 4-5 times at the minimum. Walked back to camp at one point to grab some more stuff, and coming back they were about 20m behind my brother just sitting there waiting for a chance – not aggressive or anything but clearly looking in the direction of the fish remnants, til I shoo'd them off again. Trying to bury the fish carcass mass later, they were quite close and had to shoo them mid-bury".
521	Pinnacles to Wyuna Creek (Incl. Eugarie, Yurru & Gurruman Beach Camping)	Beach at north end of Eugarie Camp Zone		Visitors emailed video of interaction observed while they were driving past in their car. Video shows 2 vehicles parked on the beach and 2 people (1 male, 1 female) standing on the beach in front of the vehicles photographing a dingo. The young man is bent down toward the dingo which is running around him, at times within 1-2m. The dingo bounces over toward the female standing 4-5m away and stops to look at her. The man walks over and crouches down, reaching out with his phone. As the two people walk away the dingo slowly follows them, then they each get into separate vehicles. The witness reported that the dingo ran after the vehicle (with the man involved) as it drove away.

538	Waddy Point Headland to Connors Corner (Incl. Waddy Point Campground)	Waddy Beachfront Campground		Off duty ranger walking along roadside of Waddy BF CZ saw a pup ahead on the road and started filming. The dingo walked to within 10m and lay down looking at the ranger who stood still. The dingo made a little bark then came closer, to within 5m and briefly displayed dominance/submissive testing behaviour, crouching down and vocalising. Once it got within <2m the ranger shouted and clapped, the dingo took a few steps back then trotted off towards some camps. This dingo has been regularly seen patrolling the beach and campground on his own.
539	Waddy Point Headland to Connors Corner (Incl. Waddy Point Campground)	Waddy Beachfront Campground		While a group of campers were sat around the fire pit a dingo came into their camp and ran off with the garbage bag. Some of the campers chased the dingo who eventually dropped the bag, they collected the rubbish and then packed it away. The campers said it was not a pup that took the rubbish.
540	Waddy Point Headland to Connors Corner (Incl. Waddy Point Campground)	Waddy Beachfront Campground		Three men were walking back to camp from the beach, one man was further behind the other two. The two men in front turned around and told the third man he had a friend following him, the man turned to see a dingo pup within a metre behind him. When the man turned the dingo lay down. The man then shoed the dingo away.
541	Orchid Beach Township	Newc's Place, Eliza Ave		Three dingoes tore up a pillow and spread stuffing all over the lawn, people across the road said they had been at it since 5:30am. When the ranger drove by at 9:30am 1 dingo was sitting on the lawn with stuffing in his mouth. The other 2 dingoes were described as a tagged male and an untagged female.
542	Eli Creek Day Use Area	Eli Creek		Campers reported that while at Eli Creek they saw a dingo rummaging through their beach bag and take off with a hat. They did not feel comfortable to shoo the dingo so watched as it chewed on the hat for a few minutes the lay down next to it to snooze. About 20 mins later, after they had been for a swim and come back the dingo had left and they retrieved the hat. They had a photo of the dingo but it was too blurry to tell if it was tagged. There was no food in the bag.
543	Eli Creek Day Use Area	Eli Creek		Visitors reported a tagged dingo (possibly orange) loitering at the creek for the couple of hours that they were there. In that time they observed the dingo steal a bag, pop 3 or 4 floaties from a stack that had been left behind around a stick and dig up a chicken carcass that had been buried in the sand (they could see skin and a drumstick). They did not have any photos.
544	Wathumba Creek & North Spit Camping Area	Wathumba Beach		Campers reported seeing a pup drag a crab pot from that had become exposed in the magroves as the tide ran out onto the beach and eat the bait inside. He was chewing on the pot and contents for about 10mins before the owner on the crab pot came down, shoed the dingo away and retrieved the crab pot
545	Wathumba Creek & North Spit Camping Area	Wathumba Beach		Dingo pup observed loitering around beach busy with people and cars. Approaching people within <3m. Easily deterred if shoed but did not leave area.
546	Wathumba Creek to Moon Point	Coongul Creek campground		RIC NRM advised of two interactions verbally. A group camping at Coongul creek arrived and unpacked. Went to beach to observe sunset and a dingo got intot bag of chips. Dingo was shoed off but loitered in the area throughout the night. Same dingo involved in a code D interaction the next morning (separate interaction).
547	Wathumba Creek to Moon Point	Coongul Creek Camp area		RIC NRM advised verbally of interaction. Untagged dingo reacted to a man who got up early for the sunrise and approached from the campsite to approximately 10-15 meters from the animal. The animal approached the man and 'barked' a number of times along with 'jumping around'. As the man turned to walk back to the camp away from the dingo, the dingo approached at speed towards the back of the man's leg until the man turned around and shoed the wongari away. Other group members got up due to the barking noises and approached the scene. Part video and images supplied.
548	Pinnacles to Wyuna Creek (Incl. Eugarie, Yuru & Gurruman Beach Camping)	Wyuna Creek		Ranger passing wyuna creek waved down by man parked near creek. Ranger pulled up to man, wife and 3 kids sitting around vehicle with the man pointing down to the water behind the vehicle where a young pup appeared to be attempting to catch fish. Ranger talked to the family with the pup moving around the vehicle approximatly 2 mins later and around the approach the 3 children playing in the sand. The man then moved towards the pup with the pup then turning and walked North along the creeks edge until no longer visible.
549	Wathumba Creek & North Spit Camping Area	Wathumba Spit intertidal zone		Reported to dingo.ranger email 4/11/22. "Good Evening, My husband and I were boating last weekend at Wathumba Creek, Saturday. We noticed a boat pull up with a dog on board. It stayed in the boat foe around 15min before the owner took it on shore for a walk and Poo. The man was quite rude when my husband informed him no dogs are allowed on Fraser and replied with oh are you a ranger?? The soon left after and hour or so. We took photos of the boat registration along with evidence they had the dog on there hoping to report it. We stayed the night in our boat with our family and on arrival to the Hervey Bay boat ramp on the Sunday we saw then taking their boat out of the water. You would assume they just moved away from us for the night.
550	Wathumba Creek to Moon Point	Bowal Creek camping area		While rangers briefing camp, female pup approached from behind the vehicle towards group. Chased off, moving <10m away under a sheak tree. Group said the young female had been continually doing laps of the camp looking for scraps approaching within 5m at times since their arrival on the afternoon of the 4th Nov 2022.
551	Wathumba Creek to Moon Point	Bowal camp zone, northern end.		As rangers approached 2 camps at the Northern end of Bowal camp zone, driver noticed 2 pups into a basket of belongings at the back of vehicle on the ground. 3 young people were carrying items from the vehicle to a tent setting up. Rangers exited vehicle and chased pups away before briefing groups. Pups returned multiple times during briefing with rangers and campers both cashing pups off on multiple occasions. Both pups did not leave area but crossed the creek and returned.
552	Eurong to Poyungan Rocks (Incl. One Tree Rocks Camping Area and Cornwells & Gabala Beach Camping)	Northern most end one tree, unoccupied camp site		Wongari x 2 seen during routine patrol/briefing by 1455531 and JG, observed loitering around unoccupied camp site at northern most end of one tree. The female walked away over the dune when our vehicle approached the camp site, was not observed near campers belongings. The male stayed for a few minutes, sniffing belongings and tents. It appeared that the male had possibly been interfering with property as there towels strewn on ground in the immediate vicinity. Both left camp site voluntarily.

553	Indian Head to Waddy Point Headland	100m North of India Head bypass track		Ranger vehicle heading to middle rocks came through bypass to notice 3 vehicles parked with a few people sitting on the back of tail gates and others in thr group fishing. As ranger approached a pup appeared to walk around one of the vehicles and in front of the ranger car before doing a loop around the group. Ranger stopped to talk to group, man advised that that pup had left and returned several times while they had been fishing. Pup left during this time for no reason. Group had left before ranger returned to area 30 mins later with no sign of pup.
554	Orchid Beach Township	Firebreaks behind Marloo Ave		A local who walks each morning reported being follwed closely by an untagged female dingo with obvious sock markings (waiting for photo to be sent). He is often followed by dingoes but said this one seemed quite assertive, sometimes running up behind him however did not display dominance testing behaviour or any signs of aggression. She followed him 3 mornings in a row, he started carrying a stick and had to throw small sticks at the ground near the dingo to deter her. He said the dingo did not appear to have been lactating.
555	Connors Corner to Ngkala Rocks (Incl. Marloo, Ocean Lake & Duling Beach Camping)	Marloo Camp Zone		Campers (mum, dad, 2yo & 8 month old) emailed after their trip to report that one night during their stay dingoes were fighting outside and on their tent. They said they felt like one was trying to get in and that they had to push from inside the tent to get it off. The father stepped outside with a torch to see two dingoes which he described as one older and one younger fighting and other dingoes at their friends site nearby. When he shone the torch on them they left. All food and rubbish had been secured appropriately. There were paw prints and scratch marks on the tent but no significant damage.
556	Connors Corner to Ngkala Rocks (Incl. Marloo, Ocean Lake & Duling Beach Camping)	Marloo Camp zone beachfront		A lady was on the beach with her 2yo & 8 month old while her husband was setting up camp. She heard a car beeping their horn and looked up to see that 2 dingoes were approaching, they dingoes walked around the vehicle and came within <10m. The man in the vehicle got out to shoo the dingoes. The lady said it took a while until they left. One of the dingoes was wearing a collar.
557	Waddy Point Headland to Connors Corner (Incl. Waddy Point Campground)	Waddy beach near South Ramp		Dingo approached and followed a lady walking on her own (carrying a stick). The dingo came within 1.5m of the walker. A car drove up and the dingo moved away but when the car left it continued to follow but didn't come as close. The lady changed direction and the dingo moved on.
558	Waddy Point Headland to Connors Corner (Incl. Waddy Point Campground)	Waddy Beachfront Campground		Ranger on morning patrol observed 2 juvenile dingoes loitering in campground where people were having breakfast. Ranger shooed dingoes who moved about 20-30m away but remained in area until an adult male dingo (QYellow20M) came through, then all 3 dingoes headed west. Campers reported the 2 juveniles had been hanging around for about 15 minutes. They also said 3 dingoes had been hnging around the night before. All campers had kept food/rubbish secure and commented on the abundant 'dingo-safe' signage being effective.
559	Waddy Lodge	Waddy Lodge Units		Time estimated. Caretakers reported that despite having built an enclosure for the bins that a guest heard a noise outside and saw a dingo had pulled a bin out of the security box. The bin lid was clipped closed and the guest shooed the dingo off so it did not get anything from the bin.
560	Connors Corner to Ngkala Rocks (Incl. Marloo, Ocean Lake & Duling Beach Camping)	Marloo beachfront		Untagged female dingo approaching people fishing to within 1m. Ranger shooed off twice while opportunistically briefing people fishing who had an open bucket of pilchards sitting on a chair. There were 3 dingoes travelling together but only the one lingering by fishermen.
561	Champagne Pools Visitor Use Area	Champagne Pools		Visitors at Champagne Pools observed a dingo loitering at the swimming area sniffing around the rocks where someone had thrown a sandwich over the boardwalk, the dingo found the sandwich and ate it then remained in the area a little longer, walking quite close to people.
562	Waddy Point Headland to Connors Corner (Incl. Waddy Point Campground)	Waddy Beachfront Campground		A family walking to the beach were approached by a juvenile dingo that came out of the bushes and within a metre of 2 girls. The girls stood still and a 2nd dingo with a yellow tag appeared, coming within 2m and huffed at the young dingo. The family started walking again and were followed by the dingoes for about 100m then the dingoes ran off through the campground. Photos of dingoes shown to NRM ranger.
563	Eli Creek Day Use Area	Eli creek day use area on beach		Visitor sighted by rangers photographing wongari. Ranger advised that visitor he was in very close proximity to wongari. Ranger spoke with visitor and provided advice on interaction and dingo safe education. Ranger advised NRM rangers on observation/interaction in person
564	Indian Head to Waddy Point Headland	South Waddy Beach		Visitor reported via email that they were worming at South Waddy and noticed 3 dingoes (untagged male, tagged female, tagged male) approaching people on beach and jumping up at the open rear tail gate of their vehicle, pulling out empty buckets. The lady making the report said she was with her husband and 2 children (8 & 10yo) when approached by the 3 dingoes to wilthin 5m, the family stoof still and the dingoes approached another group of people furtherdown the beach but then returned to the first family forming a triangle. The female dingo backed off but the male dingoes got within <3m. The tagged male barked which made the lady jump, the dingo then bared his teeth and growled. The family stood their ground and the dingoes left.
565	Pinnacles to Wyuna Creek (Incl. Eugarie, Yurru & Gurruman Beach Camping)	Dundubara beach front		Dingoes loitering for a couple of hours around fishermen
566	Wathumba Creek & North Spit Camping Area	Wathumba beach		Ranger observed 2 juvenile dingoes loitering around visitors on the beach. While briefing groups on dingo safety they all reported that the dingoes had been there for hours and at one point there were 3 juveniles together. Dingoes were approaching people within <2m, lying under cars, sniffing around sand/people/vehicles. One camper reported that in the morning one of them had been sitting outside the campground fence howling. Dingoes were easily deterred if shooed but would not go far.
567	Waddy Point Headland to Connors Corner (Incl. Waddy Point Campground)	Waddy Point beach		Campers reported seeing 2 dingoes grab a rubbish bag hanging from the back of a vehicle parked on the beach. They chased the dingoes off, collected the rubbish and put it on a seat inside the vehicle. When the vehicle owners returned the observers told them what happened.
568	Binngih Sandblow	Waddy Point beach		Off duty rangers observed 3 juvenile dingoes loitering on beach busy with visitors, approaching closely where people were cooking/eating. Shooed away multiple times. QYellow20M & QPink20F were also observed but did not hang around as long as the juveniles. Most people were dingo safe, although a few children were observed not with adults.
569	Connors Corner to Ngkala Rocks (Incl. Marloo, Ocean Lake & Duling Beach Camping)	Northern end Ocean Lake campground		Rangers doing camper briefings noticed a cardboard box had been ripped apart and dragged through the bush, rangers spoke to campers about rubbish security and campers cleaned it up. Box had no rubbish in it.
570	Connors Corner to Ngkala Rocks (Incl. Marloo, Ocean Lake & Duling Beach Camping)	Ocean Lake Campground		Camper reported waking up to a dingo standing over his face looking at him while laying in his swag. Camper scared dingo away.
571	Connors Corner to Ngkala Rocks (Incl. Marloo, Ocean Lake & Duling Beach Camping)	Southern end ocean lake campground		Camper reported he had his rubbish bag beside his car while cooking dinner aprox 5meters from him. He had his back turned but herd a noise and turned around to find a dingo into the bag. He chased it off but didnt get an ID and couldnt believe how brave it was to come in that close while he was there.

53	At 14:35 a camper flagged down rangers driving on beach and reported a deceased dingo at his campsite. He said he had arrive late the previous afternoon (15/08) and hadn't noticed anything. He got up at approx 04:10 on 16/08 and noticed a group of 6 dingoes hanging around the area, then at 04:30 while shining his torch around he saw a dead dingo in the vegetation at the base of the dune at the back of the campsite. He said he did not hear anything before he woke up, he had got up to go fishing. A substantial area of the vegetation surrounding the dingo was flattened but with no bare sand there were no visible tracks.	Flattened vegetation and multiple puncture wounds to neck, arm pit and left side near abdomen suggest intraspecific fighting. Carcass slightly bloated, not overly rigid. Flies and maggots present, camper said there were no flies when he found it in the morning. Fur was damp/wet rom morning dew (there had not been rain). Likely time of death late the previous evening or very early hours of the morning.		16/08/2022 4:35	yes	external_vet			Covered	Covered	Puncture wounds on left side, back of neck (large), front of neck and armpits. Flies/maggots in some wounds. Measurements (mm). Head: 216 Neck: 380 Ear: 125 Body: 657 Tail: 275 Height: 460 Testes did not appear to have descended.	no		Dundubara freezer awaiting necropsy						
54	At 5:18pm on Thu 22/9 an Orchid beach resident phoned off duty NRM ranger to pass on details of friends who had seen a deceased dingo on their morning walk. The ranger called the witness for more details (5:24pm) and left a voicemail. The ranger again called the witness at 8:35am on Fri 23/9 who sent a photo of the deceased pup. Rangers on duty searched the area for the dingo but there had been a big tide overnight and the body could not be located.	Nothing seen at time of death. Being in water there were no tracks surrounding the body. Likely killed by other dingoes but no evidence to support this.		22/09/2022 22:40	no				Covered	Covered	No injury evident from photo provided	no		Not found						
55	At 2:05pm on 26/9 staff from the Orchid Beach shop called the on duty Waddy Pt ranger as they had just received a call reporting an alive but badly injured dingo at Sandy Cape. After alerting the A/NRM RIC, the ranger headed up to investigate. Not far from the location a police car flagged down the ranger to report the same dingo, they said they had seen it alive and injured then been up to the lighthouse and back (approximately 1hr) and when they returned it was dead. When the ranger arrived the dingo was deceased, the body was twisted at the abdomen and there were flies but no maggots. The dingo is known to rangers and photos taken on 22/09/2022 show wounds from intraspecific fighting, these injuries are not related to cause of death. Time of death approximate. Dingo appeared to have been lactating.	Cause of death believed to be vehicle strike as lower back was broken. Tracks in the sand show drag marks for approximately 4m indicating the back legs were paralysed. There was blood/fluid on the sand by the dingo's mouth. There were lots of tyre tracks in the vicinity, old and new. At this stage, with no witness report, vehicle strike is suspected not known.		26/09/2022 5:20	yes	external_vet	12.9		Covered	Covered	Healing wounds from previous intraspecific fighting. No fresh external wounds. When found, top half of body was lying on the side, spine was twisted at abdomen and both back legs splayed out flat. Blood/fluid on sand from mouth. When feeling down the spine it was solid until the lower section which moved freely side to side.	no		Smoking ceremony performed (28/9) and stored in Waddy freezer						
56	QPWS advised by MOP. Rangers attended and found deceased Wongari on track.	Wongari found deceased on arrival. Many wongari tracks around carcass. 414	30/07/2022 7:45	10-30min	Dundubar a	Pinnacles to Wyuna Creek (Incl. Eugarie, Yuru & Gurruman Beach Camping)	Euragie CA beachfront	Reported via dingo ranger e-mail - 2 visitors (adult and teenage female) walking on the beach late afternoon when the observed a blue tagged dingo approaching them at speed from a fair distance. It approached to within 3m (almost touching their feet) and displayed dominance behaviour (crouching, jumping, etc.). Visitors moved away slowly but were conscious of fading light and possibility of other animals in the area. This behaviour continued for 10-15mins. "The dingo (appeared to me anyway) not fully grown and had a blue tag, I didn't check closely for other tag colours, I was too worried about his/her mates appearing. I am a frequent visitor of Fraser and have not encountered 'dominance testing' behaviour up close like that before".	Visitor stated that she realised it was late in the day, they should have had more people and the dingo did not make any attempts to bite but wanted to report in case a child/another person ran and the outcome was different. Several people reported 2 dingoes loitering in the area all day, all saying that the dingoes were mostly watching any children. Some said they saw the dingoes sitting on top of the dune watching. There was a family on the beach with a few children, the smallest of the kids (a boy about 6yo) was about 10-15ft from any adult, when he turned to face the water to cast his rod 1 of the dingoes ran at speed from 100m away straight toward the child. Another man nearby saw the dingo coming and ran in front of the child toward the dingo yelling to shoo it away. The dingo had about 3 goes at approaching, getting within 3m, then backed off. The child went into a vehicle and the dingo sat and watched. When the people who made the report left, the dingoes were still sitting at the top of the dune. NRM ranger later spoke to the family. The lady making the report said she was with her husband and 2 children (8 & 10yo) when approached by the 3 dingoes to within 5m, the family stood still and the dingoes approached another group of people further down the beach but then returned to the first family forming a triangle. The female dingo backed off but the male dingoes got within <3m. The tagged male barked which made the lady jump, the dingo then bared his teeth and growled.
