Tunnel dimensions

- Tunnel top (7mm ply)
- Tunnel sides (12mm ply)
- Pegs (20mm RHS or 15mm pipe) inserted into 25mm RHS tunnel side frames
- Fly cages (attached to frame with screws or bolts)
- Support brace (bolted to footing and tunnel side)
- 20mm RHS pegs (150mm) long, inserted into bottom bar of the tunnel side frame

Note:
- Tunnel should be painted flat black
- Any gaps at the top of the tunnel should be sealed
- The fly cages should be securely attached to the tunnel (no gaps)
