

Fisheries Act 1994

General fisheries permit

25 Jun 2006

HEAD OFSCHOOL, NATURAL RESOURCE SCI
GPO BOX 2434
BRISBANE QLD 4001

CTPI 49-Sch4

Delegate of the Chief Executive
Department of Primary Industries
and Fisheries

Permit Number	Issue Date	Expiry Date
53660	01/07/2006	19/02/2008

AUTHORISED ACTIVITIES

1. The holder is authorised to collect up to 50 specimens of each species (unless otherwise specified) of marine and freshwater fish, crustaceans and other aquatic animals for teaching and research purposes. The holder is authorised to collect these specimens from the following waters:
 - Moreton Bay area
 - . Raby Bay area - shoreline areas from Empire Point around to Ross Canal
 - . Southern area of Pumicestone Passage from the mouth of Ningi Creek to Bribie Island bridge
 - . Stradbroke Island at Dunwich and Amity Point
 - Tully and Herbert Rivers
 - . Tully and Herbert Rivers and associated tributaries.
2. The holder is authorised to use the following apparatus:
 - . Seine nets - 30m in length, 1.5m drop, 100mm mesh
 - . Gill nets - 30m in length, 1.5m drop, 20mm mesh
 - 30m in length, 2m drop, 25mm mesh
 - 60m in length, 3m drop, 50mm mesh
 - 60m in length, 3m drop, 75mm mesh
 - . Push net -65cm x 38cm, 4mm mesh
 - . Cast nets
 - . Bait traps
 - . Opera house traps
 - . Dip nets
 - . Angling
3. The holder is authorised to collect and hold in possession a maximum of 300 Australian bass (*Macquaria novemaculeata*) from Leslie Harrison Dam, Lake Maroon, Moogerah Dam, Hinze Dam, North Pine Dam (Lake Samsonvale), Wivenhoe Dam, Somerset Dam, Lake Manchester and Lake Kurwongbah.
4. The holder is authorised to collect up to:
 - 500 *Macrobrachium australiense*
 - 200 *Tenuibranchiurus glypticus*

Telephone Enquiries: 13 25 23
Facsimile: (07) 3229 8182

It is your responsibility to advise of any change of address.

- 500 *Cherax quadricarinatus* (redclaw)
 500 *Glossamia aprion* (mouth almighty)
 500 *Amniataba percoides* (barred grunter)
 500 *Nematolosa erebi* (bony bream)
 500 *Neosilurus hirtlii* (hyttl's tandan)
 500 *Hephaestus fuliginosus* (black bream)
5. The holder is authorised to collect *Macrobachium australiense* from sites within the Mary River catchment [predominately near Tiaro (Emery's Crossing) and in Yabba Creek], Brisbane River (Cameron's Creek, Mt Crosby), Elliott River (predominately in the region around the Bruce Highway Crossing 20 kms south of Bundaberg), Fitzroy River (Glebe Weir and Neville Hewitt Weir).
 6. The holder is authorised to collect *Tenuibramchiurus glypticus* from the southern end of Bribie Island outside the National Park and in areas within the Beerburum State Forest.
 7. The holder is authorised to collect *Cherax quadricarinatus* from streams and pools just west of Weipa.
 8. The holder is authorised to collect *Glossamia aprion*, *Amniataba percoides*, *Nematolosa erebi*, *Neosilurus hirtlii* and *Hephaestus fuliginosus* from major Gulf of Carpentaria drainages (e.g. Archer, Mitchell, Gilbert, Flinders, Leichardt and Gregory River, Norman, Staaten, Cliffdale and Lagoon Creeks and a drainage to the east of Cape York (e.g. Laura, Moorhead, Hann and Normanby Rivers).
 9. The holder is authorised to collect up to a total of 360 fire tail and striped gudgeons from Lake Maroon.
 10. The holder is authorised to collect a maximum of 10 female mud crabs.

CONDITIONS

1. The permit extends to the holder, any staff or students of The School of Natural Resource Science- QUT.
2. The holder shall ensure that no more than 50 individuals of each species will be taken from any one collection site.
3. The holder shall not collect fisheries resources 3 days before, during, and 3 days after the full moon of each month, particularly in the central Queensland region, whenever possible.
4. The holder shall ensure that all apparatus used during permitted activities is marked with name, address and DPI&F permit number and attend such apparatus at all times.
5. The holder must be in attendance of all gill nets when set. In attendance means within 100m.
6. The holder shall ensure that all specimens taken are for research purposes only and are not to be sold.
7. A sign, minimum dimensions of 30cm x 50cm, with the wording "Scientific research in progress Under Department of Primary Industries and Fisheries Permit" in legible characters, is to be located within 15 metres of the collecting activities when collecting is in progress.
8. The nets and traps when in use in the appropriate areas, are to be attended at all times by the holder or a person under his direct supervision. Under no circumstances are nets or traps to be placed across the width of creeks or rivers in navigation channels or any other areas where the placement of nets may be hazardous to boat traffic.
9. The holder shall ensure that all fish taken unintentionally

Fisheries Act 1994

General fisheries permit

19 May 2008

AUSCRAY PTY LD
 62 LARSENS RD
 COOMINYA HEIGHTS QLD 4311

Delegate of the Chief Executive
 Department of Primary Industries
 and Fisheries

Permit Number	Issue Date	Expiry Date
83421	19/10/2006	31/10/2011

1. The holder may collect and hold broodstock of the following approved species, up to the quota, at any one time, from the waters within the full supply capacity area of Wivenhoe Dam:

Common Name	Scientific Name	Quota
Redclaw crayfish	(Cherax quadricarinatus)	100
Yabby	(Cherax destructor)	100

2. The holder must contact the nearest office (to the collection location) of the Queensland Boating and Fisheries Patrol, by phone, prior to any culture stock collection trip, with details of the places and times of the collection activity.
3. The holder may authorise a total of three (3) persons to conduct activities on the holders behalf by providing to each of those persons:
 - a) a copy of the Permit
 - b) the Permit conditions
 - c) written authorisation signed by the holder which states the name of the person undertaking the collection activities and the period of authorisation.
4. This permit authorises the use of boats identified as F115 in collection activities authorised under this permit.
5. The holder may use only prescribed apparatus as detailed in Chapter 4 of the Fisheries Regulation 2008 and Part 6 of the Fisheries (Freshwater) Management Plan 1999.
6. All apparatus used for collection activities must be marked with the name and address of the holder.
7. When collection activities are being undertaken a sign is to be displayed, visible for public scrutiny, bearing the words "Activities

Telephone Enquiries: 13 25 23
 Facsimile: (07) 3229 8182

It is your responsibility to advise of any change of address.

Fisheries

authorised under Permit No. 83421".

8. All non-target, non-approved species must be returned to the water in live condition if possible, and as quickly as possible, at the place of capture.
9. Collected culture stock may be transported to the areas approved on the holder's Development Permit.
10. Culture stock collected under this Permit must be used for aquaculture purposes in accordance with the holder's Development Permit, and the holder must not sell collected culture stock for any purpose.
11. The holder must comply with:
 - a) the requirements of all relevant legislation and obtain approvals from the relevant administering organisations, including Local Authorities; and
 - b) any Codes of Practice or management arrangements relevant to the approved species (eg. Translocation Policy).
12. The holder must immediately obtain a copy of the approved fishing logbook form 'Queensland Broodstock and Culture Stock Collection Logbook (BR01 Version 01)' ("the logbook"), and upon receipt of it:
 - a) Ensure that the permit holder or nominee engaged in broodstock or culture stock collection completes the logbook as per the "Instructions for Use"; and
 - b) Ensure that the logbook is kept in accordance with the instructions contained in the logbook and any written instructions the chief executive may, from time to time, provide. The logbook must remain with the permit holder during fishing activities and at the place of residence of the permit holder when not fishing; and
 - c) Gives the completed logbook to the chief executive in accordance with the instructions contained in the logbook. In particular, this instruction requires that the completed logbook returns be forwarded to the chief executive within a specified time period after the fishing to which they relate has occurred.

WHITSUNDAY BARRAMUNDI HATCHERY PTY LTD
 PO BOX 95
 PROSERPINE QLD 4800

CTPI 49-Sch4

Delegate of the Chief Executive
 Department of Primary Industries
 and Fisheries

Permit Number	Issue Date	Expiry Date
83805	23/10/2006	02/10/2013

1. The holder may collect and hold broodstock of the following approved species, up to the quota, at any one time, from Queensland Waters:

Common Name	Scientific Name	Quota
Barramundi	(<i>Lates calcarifer</i>)	40
Blue salmon	(<i>Eleutheronema tetradactylum</i>)	20
Catfish	(<i>Arius graeffei</i>)	50
Eel tail catfish	(<i>Neosilurus hyrtlii</i>)	60
Empire gudgeon	(<i>Hypseleotris compressa</i>)	60
Fly specked hardyhead	(<i>Craterocephalus stercusmuscarum</i>)	60
Golden perch	(<i>Macquaria ambigua</i>)	20
Gulf Saratoga	(<i>Scleropages jardinii</i>)	20
Pacific blue eye	(<i>Pseudomugil signifer</i>)	60
Sand whiting	(<i>Sillago ciliata</i>)	50
Saratoga	(<i>Scleropages leichardti</i>)	20
Silver scat	(<i>Selenotoca multifasciata</i>)	10
Sleepy cod	(<i>Oxyeleotris lineolatus</i>)	20
Snakehead gudgeon	(<i>Ophieleotris aporos</i>)	50
Sooty grunter	(<i>Hephaestus fuliginosus</i>)	20
Splendid rainbowfish	(<i>Melanotaenia splendida</i>)	60
Spotted scat	(<i>Scatophagus argus</i>)	10
Trout gudgeon	(<i>Mogurnda striata</i>)	60

2. The holder must contact the nearest office (to the collection location) of the Queensland Boating and Fisheries Patrol, by phone, prior to any culture stock collection trip, with details of the places and times of the collection activity.
3. The holder may authorise a total of three (3) persons to conduct activities on the holders behalf by providing to each of those persons:
- a copy of the Permit
 - the Permit conditions
 - written authorisation signed by the holder which states the name

Telephone Enquiries: 13 25 23
 Facsimile: (07) 3229 8182

of the person undertaking the collection activities and the period of authorisation.

4. This permit authorises the use of boats identified as F085 in collection activities authorised under this permit.
5. When collecting redclaw crayfish the holder may use only prescribed apparatus as detailed in Schedule 8 of the Fisheries Regulation 1995.
6. The holder may:
 - a) use prescribed apparatus as detailed in Schedule 8 of the Fisheries Regulation 1995; and
 - b) use up to three (3) gill nets for the purpose of culture stock collection. When using a gill net, the holder, or persons acting on the holder's behalf, must be within one hundred (100) metres of the net and must not leave the net unattended for more than fifteen (15) minutes at any one time. The nets must not:
 - have a mesh size less than five (5) centimetres;
 - be joined together;
 - exceed one hundred (100) metres in length (each net);
 - be greater than fifty (50) meshes or three (3) metres in drop;
 - c) use seine nets for the purpose of culture stock collection. The nets must not have a mesh size of less than five (5) centimeters; and
 - d) use up to three (3) scoop, dip or framed seine nets for the purpose of culture stock collection; and the nets must not:
 - have a mesh size larger than twenty-five (25) millimetres;
 - exceed two (2) metres in length along any side; and
 - e) use seine nets for the purpose of culture stock collection. The nets must not have a mesh size greater than five (5) millimetres.
7. When using a net to collect species other than barramundi, the holder, or persons acting on the holder's behalf may use seine nets that do not have a mesh size of less than five (5) centimetres.
8. When using a net to collect, the holder, or persons acting on the holder's behalf must be within one hundred (100) metres of the net.
9. When using a net to collect barramundi, the holder, or persons acting on the holder's behalf must not leave the net unattended for more than fifteen (15) minutes at any one time.
10. All apparatus used for collection activities must be marked with the name and address of the holder.
11. When collection activities are being undertaken a sign is to be displayed, visible for public scrutiny, bearing the words "Activities authorised under Permit No. 83805".
12. All non-target, non-approved species must be returned to the water in live condition if possible, and as quickly as possible, at the place of capture.
13. Collected culture stock may be transported to the areas approved on the holder's Development Permit.

Telephone Enquiries: 132523
Facsimile: (07) 3221 8793

It is your responsibility to advise of any change of address.

-
14. Culture stock collected under this Permit must be used for aquaculture purposes in accordance with the holder's Development Permit, and the holder must not sell collected culture stock for any purpose.
 15. The holder must comply with:
 - a) the requirements of all relevant legislation and obtain approvals from the relevant administering organisations, including Local Authorities; and
 - b) any Codes of Practice or management arrangements relevant to the approved species (eg. Translocation Policy).
 16. The holder must immediately obtain a copy of the approved fishing logbook form 'Qld Broodstock and Culture Stock Collection Logbook (BR01 Version 01)' ("the logbook"), and upon receipt of it:
 - a) Ensure that the permit holder or nominee engaged in broodstock or culture stock collection completes the logbook as per the "Instructions for Use"; and
 - b) Ensure that the logbook is kept in accordance with the instructions contained in the logbook and any written instructions the chief executive may, from time to time, provide. The logbook must remain with the permit holder during fishing activities and at the place of residence of the permit holder when not fishing; and
 - c) Gives the completed logbook to the chief executive in accordance with the instructions contained in the logbook. In particular, this instruction requires that the completed logbook returns be forwarded to the chief executive within a specified time period after the fishing to which they relate has occurred.

Fisheries

Angling

4. The holder is authorised to take and possess up to a maximum of:
- 500 freshwater shrimp (*Macrobrachium australiensis*)
 - 500 cherabin *Macrobrachium rosenbergii*)
 - 500 redclaw crayfish (*Cherax quadricarinatus*)
 - 400 sand whiting (*Silago ciliata*)
 - 10 female mud crabs (*Scylla serrata*)

CONDITIONS

- (1) The permit extends to the holder and any staff or students of the QUT School of Natural Resource Science.
- (2) The holder shall ensure that no more than 50 individuals of each species will be taken from any one collection site.
- (3) This permit does not apply to threatened fish as listed under the Environmental Protection and Biodiversity Conservation Act 1999 or that are protected under the Nature Conservation Act 1992 or the Fisheries Act 1994.
- (4) The holder shall ensure that all apparatus used during permitted activities is marked clearly with the holders name, address and DPI&F permit number and be in attendance of such apparatus at all times. When nets have been set, in attendance means within 100m.
- (5) The holder shall ensure that gill nets when set are checked at intervals no greater than 30 minutes.
- (6) The holder must not place nets across the width of creeks or rivers in navigation channels or any other areas where the placement of nets may be hazardous to boat traffic.
- (7) A sign, minimum dimensions of 30cm x 50cm, with the message "Scientific Research in progress under DPI&F permit" is to be located within 15m of collecting activities when nets are in use.
- (8) The holder shall ensure that all fish specimens taken are for research and education purposes only and are not to be sold.
- (9) The holder shall ensure that all fish taken unintentionally during permitted activities are returned to the water as soon as practicable with as little harm or injury as possible.
- (10) The holder shall ensure that all noxious fish captured during permitted activities are to be destroyed and disposed of appropriately by burial or placing in a rubbish bin.
- (11) The holder shall not collect fisheries resources 3 days before, during and 3 days after the full moon of each month, particularly in the central Queensland region, whenever possible.
- (12) The holder shall notify the local office of the Queensland

Sharks & Rays:

- 20 Catshark (*Scyliorhinidae* spp.)
- 3 Grey reef shark (*Carcharhinus amblyrhynchos*)
- 5 Guitarfish (*Rhinobatidae* spp.)
- 3 Leopard shark (*Stegostoma fasciatum*)
- 20 Ray (*Myliobatoidei* spp.)
- 2 Sawfish (*Pristis pristis*)
- 3 Scalloped hammerhead shark (*Sphyrna lewini*)
- 3 Shovelnose ray (*Aptychotrema* spp.)
- 2 Tawny nurse shark (*Nebrius ferrugineus*)
- 3 Whitetip reef shark (*Triaenodon obesus*)

Other particular fish:

- 30 Barramundi (*Lates calcarifer*)
- 30 Barred javelin (*Pomadasys kaakan*)
- 5 Blue swimmer crab (*Portunus pelagicus*)
- 50 Cuttlefish (*Sepia* spp.)
- 50 Diamondscale mullet (*Liza vaigiensis*)
- 10 Dusky flathead (*Platycephalus fuscus*)
- 5 Flathead spp. (*Platycephalus* spp.)
- 10 Giant clam (*Tridacna* spp.)
- 10 Golden snapper (*Lutjanus viridis*)
- 2 Goldspotted rockcod (*Epinephelus coioides*)
- 10 Giant helmet shell (*Cassis cornuta*)
- 3 Mahi mahi (*Coriphaena hyppurus*)
- 15 Mangrove jack (*Lutjanus argentimaculatus*)
- 3 Mantis shrimp (*Stomatopoda*)
- 2 Mud crab (*Scylla serrata*)
- 5 Octopus (*Octopus* spp.)
- 15 Painted crayfish (*Panulirus ornatus*)
- 30 Pipefish (*Syngnathidae*)
- 30 Prawn (*Penaeidae*)
- 50 Sea cucumber (*Holothuroidea*)
- 20 Sea mullet (*Mugil cephalus*)
- 15 Silver javelin (*Pomadasys argenteus*)
- 10 Slipper lobster (*Scyllaridae*)
- 35 Threadfin bream (*Nemipteridae*)
- 10 Trevally (family *Carangidae*)
- 50 Trochus (*Trochus niloticus*)
- 10 Trumpet shell (*Charonia* spp.)

Freshwater fish:

- 75 Sicyniidae (*Sicyniidae*)

Call Centre: 13 25 23

- 30 Freshwater catfish
- 20 Freshwater mullet
- 20 Garfish
- 5 Longfin eel (*Anguilla dieffenbachia*)
- 20 Redclaw (*Cherax* spp.)
- 30 Sooty grunter (*Hephaestus fuliginosus*)
- 25 Spotted flagtail (*Kuhlia marginata*)
- 15 Yabby (*Cherax destructor*)

2. The holder is authorised to take and possess the following fish from all Queensland waters for the purpose of display at the Cairns Aquarium and Reef Research Centre:

- 25 Coal grunter (*Hephaestus carbo*)
- 30 Jungle perch (*Kuhlia rupestris*)
- 30 Purple spotted gudgeon (*Morgurnda adspersa*)
- 15 Sooty grunter (*Hephaestus fuliginosus*)
- 200 Giant glassfish (*Parambassis gulliveri*)
- 6 Freshwater Moray (*Gymnothorax polyuranodon*)
- 20 Fork-tailed catfish (*Arius graeffei*)
- 20 Berney's catfish (*Arius berneyii*)
- 50 Tully river grunter (*Hephaestus tulliensis*)
- 10 Eel tailed catfish (*Tandanus tandanus*)
- 10 Narrow-fronted catfish (*Neosilurus ater*)
- 6 Northern saratoga (*Scleropages jardini*)
- 15 Long-finned eel (*Anguilla reinhardtii*)
- 40 River garfish (*Hyporhamphus regularis*)
- 6 Bullrout (*Notesthes robustus*)
- 30 Golden sleepy cod (*Ocyeleotris lineolatus*)
- 6 Barramundi (*Lates calcarifer*)
- 20 Mangrove jack (*Lutjanus argentimaculatus*)
- 5 Whiptail rays (*Himantura dalyensis*)
- 100 Lake Eacham rainbowfish (*Melanotaenia eachamensis*)
- 150 Rainbowfish (*Melanotaenia* spp.)
- 6 Mt Lewis spiny crayfish (*Euastacus fleckeri*)
- 10 Giant jungle prawn (*Macrobrachium lar*)
- 50 Mouth almighty (*Glossamia aprion*)
- 15 Flag-tailed grunter (*Amnibata caudavittata*)

3. The holder is authorised to use the following apparatus:

- a. Dip nets up to 80cm in width, with a mesh size of 3mm.
- b. Prescribed recreational fishing apparatus as detailed in Chapter 4, Part 1 of the Fisheries Regulation 2008.

CONDITIONS

1. The permit extends to the holder (Cairns Aquarium and Reef Research Centre), employees of Cairns Aquarium and Reef Research Centre and any other person authorised by the holder. A person authorised by the holder must have a copy of the permit and written authorisation by the holder which states the name of the person undertaking the authorise activities, the authorised activities to be undertaken, number of species to be taken and possessed, locations to the fished and the period of authorisation.
2. A sign, minimum dimensions of 30cm x 50cm with the message "Authorised Activities in progress under DAF permit number 189880" is to be displayed within 15 meters of collecting activities.

Call Centre: 13 25 23

Facsimile: (07) 3229 8182

Website: www.daf.qld.gov.au

It is your responsibility to advise of any change of address

3. The holder must ensure that all fish specimens taken or possessed are for display and research purposes only and are not to be sold or consumed. Progeny of fish collected must also not be sold.
4. The holder must ensure that all fish taken unintentionally during authorised activities are returned to the water as soon as practicable with as little harm as possible.
5. The holder must ensure that any fish collected under this permit that are considered restricted matter under the Biosecurity Act 2014 must be killed as soon as possible and disposed of in a whole state either by burial in ground above the high water mark or placing in a waste disposal receptacle (i.e. a bin).
6. The authorisation to take regulated species does not remove any limitations placed on the take and possession of these species by any other government agency.
7. The holder must notify the local office of Queensland Boating and Fisheries Patrol not less than 48 hours prior to any activities commencing under this permit.
8. The holder must submit a written report one year after the issue of the permit and each subsequent year of the permit outlining the number and species of fisheries resources caught (including released, taken and incidental mortalities), apparatus used, locations fished and days fished to the Chief Executive, Fisheries Queensland, PO Box 46, Brisbane QLD 4001.
9. The holder must carry this permit (or a copy) during authorised activities and produce it at any time on request for inspection by an officer authorised under the Fisheries Act 1994.

AUTHORISED ACTIVITIES

- The holder may be in possession of the following regulated species for display and educational purposes at the Cairns Aquarium and Reef Research Centre:

Particular cod & grouper:

- 10 Barramundi cod (*Chromileptes altivelis*)
- 5 Birdwire rockcod (*Epinephelus merra*)
- 2 Blacksaddle rockcod (*Epinephelus howlandi*)
- 2 Bluelined rockcod (*Cephalopholis formosa*)
- 2 Bluespotted rockcod (*Cephalopholis cyanostigma*)
- 2 Brownbarred rockcod (*Cephalopholis boenak*)
- 2 Camouflage grouper (*Epinephelus polyphekadion*)
- 2 Comet grouper (*Epinephelus morrhua*)
- 10 Coral rockcod (*Cephalopholis miniata*)
- 2 Dot-head rockcod (*Cephalopholis microprion*)
- 2 Eightbar grouper (*Epinephelus octofasciatus*)
- 5 Flagtail rockcod (*Cephalopholis urodeta*)
- 2 Flowery rockcod (*Epinephelus fuscoguttatus*)
- 2 Foursaddle grouper (*Epinephelus spilotoceps*)
- 2 Greasy rockcod (*Epinephelus tauvina*)
- 2 Highfin grouper (*Epinephelus maculatus*)
- 2 Leopard rockcod (*Cephalopholis leopardus*)
- 2 Longfin rockcod (*Epinephelus quoyanus*)
- 2 Maori rockcod (*Epinephelus undulatostratus*)
- 2 Radiant rockcod (*Epinephelus radiatus*)
- 2 Peacock rockcod (*Cephalopholis argus*)
- 2 Potato rockcod (*Epinephelus tukula*)
- 1 Queensland grouper (*Epinephelus lanceolatus*)
- 3 Sixband rockcod (*Cephalopholis sexmaculata*)
- 3 Sixbar grouper (*Epinephelus sexfasciatus*)
- 2 Snubnose grouper (*Epinephelus macrospilos*)
- 5 Tomato rockcod (*Cephalopholis sonnerati*)

- 2 Whitespotted grouper (*Epinephelus coeruleopunctatus*)

Particular coral trout:

- 2 Barcheek coral trout (*Plectropomus maculatus*)
- 10 Bluespotted coral trout (*Plectropomus laevis*)
- 5 Common coral trout (*Plectropomus leopardus*)
- 15 Coral trout (*Plectropomus* spp. & *Variola* spp.)
- 2 Passionfruit coral trout (*Plectropomus areolatus*)
- 2 Vermicular cod (*Plectropomus oligacanthus*)
- 5 White-edge coronation trout (*Variola albimarginata*)
- 5 Yellowedge coronation trout (*Variola louti*)

Particular emperor:

- 50 Bigeye seabream (*Monotaxis grandoculis*)
- 50 Goldspot seabream (*Gnathodentex aureolineatus*)
- 25 Longnose emperor (*Lethrinus olivaceus*)
- 50 Miscellaneous emperor, other than grass emperor (*Lethrinus* spp., other than *Lethrinus laticaudis*)
- 5 Orangespotted emperor (*Lethrinus erythracanthus*)
- 3 Orangestriped emperor (*Lethrinus obsoletus*)
- 5 Ornate emperor (*Lethrinus ornatus*)
- 5 Redspot emperor (*Lethrinus lentjan*)
- 5 Redthroat emperor (*Lethrinus miniatus*)
- 50 Seabream (*Gymnocranius* spp.)
- 10 Spangled emperor (*Lethrinus nebulosus*)

Fusilier:

- 1000 Fusilier (*Caesionidae* spp.)

Particular surgeonfish:

- 300 Surgeonfish (*Acanthurus* spp. & *Ctenochaetus*)
- 100 Unicornfish (*Naso* spp. & *Prionurus* spp.)

Particular sweetlip:

- 100 Miscellaneous sweetlip (*Plectorhinchus* spp.)
- 10 Painted sweetlip (*Diagramma pictum labiosum*)

Particular tropical snapper & seaperch:

- 100 Bigeye snapper (*Lutjanus lutjanus*)
- 5 Blackspot snapper (*Lutjanus fulviflamma*)
- 300 Bluestriped snapper (*Lutjanus kasmira*)
- 50 Brownstripe snapper (*Lutjanus vitta*)
- 5 Chinamanfish (*Symphorus nematophorus*)
- 15 Crimson snapper (*Lutjanus erythropterus*)
- 300 Fiveline snapper (*Lutjanus quinquelineatus*)
- 100 Hussar (*Lutjanus adetii*)
- 10 Maori snapper (*Lutjanus rivulatus*)
- 15 Midnight snapper (*Macolor macularis*)
- 520 Miscellaneous jobfish & snapper, other than mangrove jack (*Aphareus* spp., *Etelis* spp., *Pristipomoides* spp., & *Lutjanus* spp., other than *Lutjanus argentimaculatus* and *Lutjanus johnii*)
- 10 Moses snapper (*Lutjanus russelli*)
- 5 Onespots snapper (*Lutjanus monostigma*)
- 150 Paddletail (*Lutjanus gibbus*)
- 15 Red bass (*Lutjanus bohar*)
- 20 Red emperor (*Lutjanus sebae*)
- 5 Saddletail snapper (*Lutjanus malabaricus*)

Department of Agriculture and
Fisheries

Permit Number	Issue Date	Expiry Date
195983	20 March 2018	20 March 2023

AUTHORISED ACTIVITIES

- This permit authorises the holder to take broodstock of the following approved species, up to the specified maximum number:
 - A maximum of 500 Redclaw Crayfish (*Cherax quadricarinatus*) can be collected during the first year of the permit
 - A maximum of 200 Redclaw Crayfish (*Cherax quadricarinatus*) can be collected for each of the following years of the permit
- The holder may possess any broodstock taken under authorisation 1 at the area approved on the Development Permit 2017BC0629.
- The holder is authorised to take broodstock from the Burdekin River catchment and Paluma Dam and Tinaroo Dam.
- The holder is authorised to use the following apparatus to collect broodstock:
 - 20 funnel (opera house) traps

CONDITIONS

- The holder may authorise a total of three (3) persons to conduct activities on the holders behalf by providing to each of those persons:
 - a copy of the permit;
 - the permit conditions; and
 - written authorisation signed by the holder which states the name of the person undertaking the collection activities and the period of authorisation.
- The holder must ensure that all apparatus used during authorised activities is marked clearly with the holders name, address and DAF permit number and be in attendance of such apparatus at all times.
- A sign, minimum dimensions of 30cm x 50cm, with the message

Call Centre: 13 25 23

"Broodstock collection in progress under DAF permit number 195983" is to be displayed and visible for public scrutiny on board any vessel used for authorised activities.

- (4) The holder must ensure that collected broodstock are transported to the areas approved on the Development Permit 2017BC0629.
- (5) The holder must ensure that all broodstock taken are used for aquaculture purposes in accordance with the Development Permit 2017BC0629, and must not sell collected broodstock for any purpose.
- (6) The holder must ensure that all fisheries resources taken unintentionally during authorised activities are returned to the water as soon as practicable with as little harm or injury as possible.
- (7) The holder must ensure that all fish classified as restricted matter under the Biosecurity Act 2014 captured during authorised activities are to be destroyed and disposed of by burial or placing in a rubbish bin.
- (8) The holder must ensure that all excess redclaw crayfish caught during authorised activities are not to be returned to the water and must be destroyed and disposed of by burial or placing in a rubbish bin.
- (9) The holder must comply with:
 - a) the requirements of all relevant legislation and obtain approvals from the relevant administering organisations, including Local Authorities; and
 - b) any Codes of Practice or management arrangements relevant to the approved species (eg. Translocation Policy).
- (10) The holder must immediately obtain a copy of the approved fishing logbook form 'Qld Broodstock and Culture Stock Collection Logbook (BR01 Version 01)' ("the logbook"), and upon receipt of it:
 - a) Ensure that the permit holder or nominee engaged in broodstock or culture stock collection completes the logbook as per the "Instructions for Use";
 - b) Ensure that the logbook is kept in accordance with the instructions contained in the logbook and any written instructions the chief executive may, from time to time, provide. The logbook must remain with the permit holder during fishing activities and at the place of residence of the permit holder when not fishing;
 - c) Gives the completed logbook to the chief executive in accordance with the instructions contained in the logbook. In particular, this instruction requires that the completed logbook returns be forwarded to the chief executive within a specified time period after the fishing to which they relate has occurred.
- (11) The holder must contact the nearest office (to the collection location) of the Queensland Boating and Fisheries Patrol, by phone, prior to any culture stock collection trip, with details of the places and times of the collection activity.
- (12) The holder must carry this permit (or a copy) during authorised activities and produce it at any time on request for inspection by an officer authorised under the Fisheries Act 1994.

AUTHORISED ACTIVITIES

1. The holder is authorised to collect from Queensland waters up to 50 specimens of each species (unless otherwise specified) of marine and freshwater fish, crustaceans and other animals for teaching and research purposes.
2. The holder is authorised to use nets, traps and associated equipment for the capture of these specimens.
3. The holder is authorised to collect and hold in possession a maximum of 300 Australian bass (*Macquaria novemaculeata*) from Leslie Harrison Dam, Lake Maroon, Moogerah Dam, Hinze Dam, North Pine Dam (Lake Samsonvale), Wivenhoe Dam, Somerset Dam, Lake Manchester and Lake Kurwongbah.
4. The holder is authorised to collect up to:
 - 500 *Macrobrachium australiense*
 - 200 *Tenuibranchiurus glypticus*
 - 500 *Cherax quadricarinatus* (redclaw)
 - 500 *Glossamia aprion* (mouth almighty)
 - 500 *Amniataba percoides* (barred grunter)
 - 500 *Nematolosa erebi* (bony bream)
 - 500 *Neosilurus hirtlii* (hyttl's tandan)
 - 500 *Hephaestus fuliginosus* (black bream)
5. The holder is authorised to collect *Macrobrachium australiense* from sites within the Mary River catchment [predominately near Tiaro (Emery's Crossing) and in Yabba Creek], Brisbane River (Cameron's Creek, Mt Crosby), Elliott River (predominately in the region around the Bruce Highway Crossing 20 kms south of Bundaberg), Fitzroy River (Glebe Weir and Neville Hewitt Weir).
6. The holder is authorised to collect *Tenuibranchiurus glypticus* from the southern end of Bribie Island outside the National Park and in areas within the Beerburum State Forest.
7. The holder is authorised to collect *Cherax quadricarinatus* from streams and pools just west of Weipa.
8. The holder is authorised to collect *Glossamia aprion*, *Amniataba percoides*, *Nematolosa erebi*, *Neosilurus hirtlii* and *Hephaestus fuliginosus* from major Gulf of Carpentaria drainages (e.g. Archer, Mitchell, Gilbert, Flinders, Leichardt and Gregory River, Norman, Staaten, Cliffdale and Lagoon Creeks and a drainage to the east of Cape York (e.g. Laura, Moorhead, Hann and Normanby Rivers).
9. The holder is authorised to collect up to a total of 360 fire tail and striped gudgeons from Lake Maroon.
10. The holder is authorised to collect a maximum of 10 female mud crabs.

CONDITIONS

1. The permit extends to the holder, any staff or students of The School of Natural Resource Science- QUT.
2. The holder shall ensure that no more than 50 individuals of each species will be taken from any one collection site.
3. The holder shall not collect fisheries resources 3 days before, during, and 3 days after the full moon of each month, particularly in the central Queensland region, whenever possible.
4. The holder shall ensure that all apparatus used during permitted activities is marked with name, address and QFS permit number and attend such apparatus at all times.
5. The holder shall ensure that all specimens taken are for research purposes only and are not to be sold.
6. A sign, minimum dimensions of 30cm x 50cm, with the wording "Collection in Progress Under Queensland Fisheries Service Permit (PRM00491J)" in legible characters, is to be located within 15 metres of the collecting activities when collecting

Permit Number	PRM03630G	Term	Issued	20 Feb 2003	Expires	19 Apr 2003
