Application to request a landing place code

As of 1 September 2021, the commercial fisher in control of the fishing operation is required to provide a landing place as part of their pre-trip notice reporting. All landing places **must** be open for entry by inspectors. A list of current landing place codes is available to all fishers at fisheries.qld.gov.au. If your proposed landing place is not listed, a new landing place code can be requested.

To request a new landing place code, this form must be completed by either the primary commercial fishing licence holder or the commercial fisher in control of the fishing operation. The completed form must be submitted to the Quota Monitoring Unit by email, facsimile or the mailing address provided at the bottom of this form. Each request will be reviewed by the department – if the proposed landing place meets the requirements, a landing place code will be generated. You will be notified of the code by email or your postal address.

Please tick your preferred method of notification: email OR postal address

Important: All landing places **must** be open for entry by inspectors.

Landing place details

All requested landing places must be accurate and be submitted in either decimal degrees (e.g. 19.156883°S, 146.599000°E), degrees decimal minutes (e.g. 19°09.41'S, 146°35.94'E) or degrees minutes seconds (e.g. 19°09'25"S, 146°35'56"E) format.

Please tick format: Decimal degrees Degrees decimal minutes Degrees minutes seconds

Latitude _____ S Longitude _____ E

Landing place name or address: _____

What type of landing place (*tick one that applies*) Public Private

Note: All public landing place codes will be made available for use by all commercial fishers. If you tick 'private', the landing place code will only be provided to you.
