CHIEF INSPECTOR'S APPROVAL
OF
MOVEMENT CONDITIONS WITHIN A STANDSTILL ZONE
FOR EQUINE INFLUEZA

Exotic Diseases in Animals Act 1981
Section 17

I, ALLISON CROOK (the Chief Inspector of Stock, and an inspector appointed under the *Exotic Diseases in Animals Act 1981*) acting pursuant to the Standstill Notification made by the Minister for Primary Industries and Fisheries under section 16 of the *Exotic Diseases in Animals Act 1981*, on Sunday 26 August 2007 for the exotic disease equine influenza advise that the following movement conditions shall apply in respect of the Standstill Zone that consists of the whole of Queensland excluding a relevant infected premise (IP) and an area notified by the Minister to be a Restricted Area and the area notified by the Minister to be a Control Area for equine influenza.

An animal product from a horse, mule, donkey or other animal of the Equidae Family may be moved within and out of the Standstill Zone if it meets the following conditions.

- (a) it is a diagnostic specimen or sample¹ containing equine blood or other animal products from an animal of the Equidae family and packaged as required for diagnostic samples and it is being moved to a veterinary laboratory or between veterinary laboratories for the purpose of diagnostic testing or for research purposes.
- (b) it is contained in a manufactured pharmaceutical product or it is being moved to a manufacturing facility for the manufacture of a pharmaceutical product.
- (c) it consists of equine waste products (equine faeces and urine) being moved for disposal.

Issued this 28th day of August 2007 at Brisbane Qld
