**Attachments:** s.73 Irrelevant information-Lodgement.kml; s.73 Irrelevant information LotPlan.kml

Dear s.73 Irrelevant information

On 17/11/2021 Department of Resources received your notification of intent to clear vegetation under the following accepted development clearing code "Managing a native forest practice".

An overview of lot s.73 Irrelevant information is:

- Tenure: Freehold
- Vegetation Categories: B,C,R,X
- Bioregions: Brigalow Belt, Southeast Queensland
- Local Government Areas: South Burnett Regional

You notified that you intend to clear vegetation:

- On lot s.73 Irrelevant information
- In Vegetation Category B
- For the purpose of Native forest practice
- For activities:
  - Hardwood
- In regional ecosystems:

### Hardwood

#### Category B

- 12.5.1
- For a total estimated area of: 1464.6700 hectares

Your notification reference number is s.73 Irrelevant information

**Your clearing must comply with all practices, area limits and requirements in the accepted development code "Managing a native forest practice".**

Note: Other legislation may also affect clearing activities. Before you clear vegetation under this code, it is strongly recommended that you contact the relevant agencies listed in the appendix of the code to determine whether your proposed clearing activity is allowable under other local, state and federal laws.

### Disclaimer and acknowledgement

Any 'lodgement' kml file generated as part of this notification is merely a representation of the total estimated area notified under this notification. The 'lodgement' kml file is not verified against the total estimated area, and you should ensure the total clearing done under this notification is limited to the total estimated area notified.

The Department of Resources makes no representations about the accuracy of any kml file e.g. the 'lodgement' kml file accurately reflecting the total estimated area notified under this notification. Specifically, Department of Resources does not warrant, guarantee or make any representations regarding the correctness, accuracy, reliability, currency, or any other aspect regarding characteristics or use of the 'lodgement' kml file.

By commencing clearing under this notification, you acknowledge and accept the sole responsibility and risk associated with the use of any kml file, and agree that in no event shall Department of Resources be liable for any special, indirect or consequential damages or any damages whatsoever rising out of or in connection with the use of any kml file.

**Instructions on Viewing .KML files on Queensland Globe.**

- Download and Save the Attached .kml files to a folder on your PC.
- Go to [Queensland Globe website](#) and add the KML as part of a new layer.
- Multiple KML's can be added as part of the layers, and various spatial analysis functionalities be used.

Please note that Department of Resources uses satellite imagery to monitor compliance with vegetation management regulations. Department of Resources may also contact you in regard to conducting an on-site audit of your clearing.

If you have any queries about this information or wish to seek advice on the practices and requirements in the accepted development code "Managing a native forest practice", contact 135VEG or 135834.

s.73 Irrelevant information

The screenshot displays the Queensland Globe interface. On the left, a vertical sidebar contains navigation icons for Topics, Search, Layers (40 items), Places (7 items), Maps (2 items), Print, and Help. The main 'Layers' panel is active, showing a list of layers with search filters. Two layers are highlighted with red boxes and labeled 's.73 Irrelevant': 'Lodgement.kml - poly' and 'LotPlan.kml - poly'. The legend on the right side lists various map categories with corresponding color swatches: 'Local government', 'Vegetation management wetlands map' (including 'Wetlands map'), 'Essential habitat map', 'RVM category A - vegetation offsets; compliance notices; VDecs', 'RVM category B - remnant vegetation', 'RVM category C - high-value regrowth vegetation', 'RVM category R - reef-regrowth watercourse vegetation', and 'RVM category X - exempt clearing work on Freehold/Indigenous/Leasehold land'. A large, semi-transparent watermark 'Published on Resources Disclosure Log RTI Act 2009' is overlaid diagonally across the center of the page.
